KAISER JUBILEE FUND, 1913.

Extracts from the Appeal issued by the Committee.

"This festival day will be celebrated by all Germans, last not least by those living abroad, with hearty joy and gratitude, and those Germans who live in Great Britain and Ireland will doubtless desire to stand in the front ranks."

"The Committee . . . has therefore resolved to arrange a collection amongst the Germans living in the United Kingdom and amongst those, who through birth, descent, education, or other relations are bound to the German home."

"This 'Kaiser Jubilee Fund' shall not only serve its immediate purpose, but shall be a further help to unite the different German populations in Great Britain and Ireland who are one in the common bond of love to the German Fatherland."

"The German Colony in Great Britain or Ireland never missed an occasion to prove its love to the Fatherland and its respectful attachment to the exalted personality which is at its head."

Among the Members of the Committee and the Principal Contributors to this Fund were :—

Chairman : Baron Bruno Von Schröder	£5,000

PREFACE.

Now that political parties are in the melting pot and political principles no longer exist for the bulk of the leading politicians, it becomes the duty of all to seek for the springs of action behind the political arenas. From whatever point of view the state of Europe may be regarded, there is one problem which confronts us everywehere, namely, *the Jew.* The present work has been compiled with the aim of enabling Britons to see for themselves some of the main facts of the Jew Question as they exist at the present moment within our Empire.

Let it be clearly understood that this volume is *not* compiled as an anti-semite book, but is published in the interests of the true British (by blood), as it is of national importance that our countrymen should know how great is the malign influence of International finance, which is in the hands of an alien race who have always declined and always will decline to be absorbed into any nation.

Although a large number of the names found in this book are Teutonic-sounding it is in no way suggested that the owners of them are necessarily either Jews, Jew-Perverts, or Germans, a number of them not only have English names,

---

"The Prime Minister had said that Germany should pay to the utmost farthing, and we should search her pockets for it, but we had not put even a finger into them."—Mr. Bottomley, M.P., House of Commons, July 21, 1919.

CHANGES OF NAME—*continued.*

These Asiatics are polluting our fine old English names, and all these changes should be forthwith cancelled.

Approximately 8,000 people were permitted to change their names during the war, and it was not until July, 1918 that our Alien-controlled Government issued instructions that no persons—other than natural born British subjects—could do so. Meanwhile, under camouflaged names, these Jews are stealing our trade, and the discharged sailor and soldier is wondering whether he fought for England or for the Alien Jew.

but are English, and are included on account of their associations. The object of the book is solely to make plain the garotte-like grip of Finance when dominated by the International Jew and used for exploiting Trusts and Combines against national interests. Finance is in no way attacked, as it is, of course, essential for the development of our Empire when in native hands and used in national interests. It is the pollution of finance which has produced so much corruption both in politics and in every day affairs.

This volume does not profess to include anything like a complete list of the International Jew Financiers in England, but in future editions this will be remedied. The comparatively few mentioned will give an idea of how far-reaching are the tentacles of this Cosmopolitan Finance. The details given do not profess to cover the full extent of the operations of these Financiers as it is well known that the majority of them work underground and successfully cover up the bulk of their financial dealings. It is a first attempt to uphold *National* as against *International* control, and this can be most effectually done by placing the facts before the public so as to shew the colossal money-power the International Alien wields.

"The horror with which thousands of our Russian-born youths regard the idea of service in the British army must not be attributed to mere reasons of personal slackness. It has deep moral foundations."—W. Jabotinsky, in the "Jewish Chronicle," June 30, 1916.

PREFACE—*continued.*

It must not be imagined that England is the only country in such a plight. France is staggering under the same burden; Russia is crushed by it; Italy is floundering in the toils; Germany, the home of the Ashkenazi, whose head-quarters is in Frankfort, is only now beginning to realise that she has been duped as we have been by the sinister money-power. The United States of America, where International Finance is more rampant than anywhere else, due to the fact of its being a new country, will only discover the nature of the Financial Octopus when its true citizens have time to take stock of the condition of affairs of to-day.

It will be noticed that some of the persons mentioned are dead, but their names have been included because they at one time formed part of the International financial army whose object has been to enslave England and reduce the English people to the level of industrial serfs.

The bulk of those shewn as Directors held their positions in 1914 and prior to that date, and it must be understood that many changes have taken place during the War.

A perusal of the volume will make plain the meaning of the "Hidden Hand," which is simply—Jew Finance. It is the power of this International cosmopolitan alien Finance which secured the Declaration of London; which so repealed

THE JEW IN OUR PRIVY COUNCIL.

DEFINITION OF ALIEN.

" Wholly different in Nature."—*Imperial Dictionary.*

Since the beginning of the war we have become accustomed to hearing almost as much of " Orders in Council," as of Acts of Parliament.

The Council referred to is the Privy Council, and it is of the first importance that the English people should closely scrutinize the constitution of this body, which is able to issue " orders " on its own initiative, which have the full force of law.

The Privy Council is of very ancient origin. A council, the number of which was about twelve, was instituted by King Alfred in 895 A.D.

On the death of a Monarch, a meeting of the Privy Council is the first procedure, and they are all re-sworn. The Lord High Chancellor is, ex-officio, a Privy Councillor. The Lord President of the Council is the Fifth great officer of State, and, as such, is always a prominent member of the Cabinet. At the present time the office is held by Earl Curzon.

An important point to notice is that *the proceedings are not published.*

A Privy Councillor is chosen at the Sovereign's will, and once the required oath is taken he becomes a Councillor for

ONCE A JEW ALWAYS AN ALIEN.

Soon after war broke out the Local Council of Tring, of which Lord Rothschild was a member, passed a resolution calling upon the Government to intern all aliens. Lord Rothschild at once proclaimed where his sympathies lay by resigning his seat on the Council. Lord Rothschild was quite right in this. Ninety per cent of the aliens in England are Jews, and with his Lordship kinship tells when it is a case of Jew *versus* Englishman, as it tells always and in every country with the Jew.

As Rothschild's action suggests, the word "alien" should be spelt "J.E.W." By his blood, by the shape of his mind, by his Pharisaic, Talmudic religion the Jew must be a foreigner in all countries except his own, and this no amount of "naturalising" can ever alter. Since the year 1844 there have been "naturalised" in this country over five hundred persons named Cohen. Nearly all of them came from Russia and Germany and count as Russians, Prussians, &c. But they all belong to the same race as

life, or for the life of the Sovereign, though subject to removal or resignation. The Sovereign, under the advice of the Council can dissolve or prorogue Parliament. Vested as it is with enormous power, and at the same time secrecy of proceedings, it was for centuries jealously guarded from invasion by Aliens, but it fell in 1888, when Baron Henry de Worms was appointed Under Secretary of State for the Colonies and Member of His Majesty's Privy Council. This is, of course, excluding Disraeli, who was baptised and brought up as a Christian. Since 1888, the taint of Alien blood in the Council has rapidly increased; until in 1902, Sir Ernest Cassel, and in 1909, Sir Edgar Speyer—both naturalised alien Jews—were, in spite of the terms of the Act of Settlement, 1770, which prevented Aliens and sons of Aliens from holding such positions, sworn of the Council.

During the war an effort was made to purge the Council of these names, when the Jewish Lord Chief Justice, Rufus Isaacs, ruled that although the Act of Settlement definitely excluded any alien from being a member of our Privy Council, Mr. Asquith's Act of August 7th, 1914, passed three days after war was declared, had "by implication" given Aliens the right to be appointed to that Council.

Sir Alfred Mond's partner, Sir John Brunner, was also a Privy Councillor, but he was not an Askenazi, being merely the son of a friendly Alien. Under the Act of Settle-

Bela Kun (or Cohen) the arch Bolshevik of Hungary and the Cohens who were born in this country. Their "Torah" and their "Talmud" are the Jews' "portable fatherland" as the Jew poet Heine rightly called it—whatever country they may live in.

THE JEWS ARE A RACE NOT A RELIGION.

A Jew always wants—and has—it both ways. For when a Jew has equal rights, he has, of course, double rights—all an Englishman's rights, for example, in England, and all his Jewish "rights" (which are neither few nor unimportant) as well. An Englishman may not trade on Sunday, but because *some* Jews do *not* trade on *Saturday*, therefore *all* Jews *may* trade on *Sunday*. An Englishman in war time must eat war bread, but a Jew must have white bread on account of his "religion." For the same reason a Jew must have fresh Kosher-killed English meat, whilst a mere Englishman must be content with the frozen article which the Jew meat-ring of America deigns to sell him.

THE JEWS' "RELIGION" IS FINANCE.

The simple Englishman thinks that if a Jew is "naturalised" English or born in England he is to all intents and purposes an Englishman. It is on this false belief that the Jew thrives in England. It is time English people understood that the Jew is not merely not English, but is not European, and he never can become an Englishman. The Jewish race is not a white race. There are black Jews, there are no black Englishmen or Frenchmen. The Jew's religion is in his blood, not in his heart, it comes by inherit-

"The first thing we do, let's kill all the lawyers."—Shakespeare, "Henry VI., Second part, Act 4.

THE JEW IN OUR PRIVY COUNCIL—*continued.*

ment he also had no right to be a member of the Council, but our Alien loving, and in many cases, Jew purchased politicians, have during the last fifty years trampled under foot any Acts passed by our ancestors to preserve the birthright of Britons.

The following Ten Askenazi have for years wielded enormous powers in our innermost Council of State, and with the exception of the late Lord Rothschild, are all members of our Privy Council to-day.

The Late Lord Rothschild. Earl Reading (Rufus Isaacs).
Hon. Edwin Samuel Montagu (former name Samuel). Sir Wm. E. Goschen.
Herbert Louis Samuel. Sir Edgar Speyer.
Sir Harry Simon Samuel. Sir Matthew Nathan.
Sir Alfred Moritz Mond.
Sir Ernest Cassel.

It will be noticed that the tribe of Samuel is very strongly represented, and it must also be remembered that where you get one Jew you get the whole influence of his race.

It is notorious that the Jew influence on our Privy Council has been all-powerful for many years, and after perusing the above names this is not surprising.

These ten Jews control literally hundreds of millions of pounds, and it is entirely owing to their grip over finance that they wield the sinister power they do.

Isaac Blümchen in his book "Le Droit de la Race Superieure" says, "We (the Jews) reign over France by virtue of the right of a superior race over an inferior race." Are Englishmen going to permit their freedom to be taken away in the same way?

"If any danger of strained relations (with Germany) did exist, it did not arise from any action of the Government, but from irresponsible utterances such as that of Lord Roberts in Manchester, which must have done harm."—Mr. F. D. Acland (Under Secretary for Foreign Affairs), Rochdale, Nov. 28, 1912.

ance and separatism not by conviction like the religion of white people. The spirit of England has digested Ancient Britons, Romans, Anglo-Saxons, Danes, Normans, Frenchmen, Picts, Scots, Welsh and Irish. In a few generations in England all these have become English in heart and mind and undistinguishable from the rest of the English population. But the Jew is never digested; he is undigestible; separate always, even objecting to having the bones of his dead mingled with those of Englishmen.

The Jews' religion is hostile to all other religions but it is crucially hostile to Christianity, though it is not too hostile to it to make money out of Christians. The simple Englishman thinks of the Jew as singing to himself penitential psalms all day and reading the prophet Jeremiah all night. But the Jew has other Scriptures. The Book of Deuteronomy may fairly be taken as representing the religion of the Jew to-day. The book contains mixed with admirable maxims a sort of pawnbrokers' manual, and rules for slave-traders among other things. It is these which the Jew has observed most closely. The texts most practised by Jews are the following: "And it shall be, when the Lord thy God shall bring thee into the land which he swore....to give thee....thou shalt eat and be full" (vii. 10, 11). This sounds very like England! "Thou shalt remember the Lord thy God, for it is he that giveth thee power to get wealth." (viii. 18) This sounds like the gold and diamond mines of South Africa!

The next two texts describe the double-dealing which exists in the religion of the Jew (xiv. 6). "Thou shalt

THE BRITISH CONSULAR SERVICE.

"TRADE FOLLOWS THE FLAG!!"

The power of the Israelitish Financier in controlling the policy of Great Britain is nowhere shown more clearly than in the actions of the Foreign Office which has the absolute control of the Consular Service. The British Foreign Office has been very truly called the *too* Foreign Office, but from a perusal of the subjoined specimens of appointments it would seem that it might be more correct to style it the *Jew* Foreign Office.

This list does not take account of the Michaelideses and others who have changed their names to Graham, Montagu, Gresham and other well known old British names.

Space prevents us from giving a full list of our "Too Foreign" Consular agents, but it will serve to show how appointments were made prior to the war, and there has been little improvement since.

lend unto many nations, but thou shalt not borrow, and thou shalt rule over many nations, but they shall not rule over thee."—*Vide* the A.E.G. and the International Banks! This also accounts for the 14 points of the Jew-devised League of Nations. It is the Jews' "Welt-politik" in a nutshell; and the favour which Germany possesses in the eye of the Jew arises from the fact, that Germany has accepted the Jew's creed more completely than any other nation. Without her secret alliance with the Jew nation Germany could not have started the world-war. The same secret alliance is now saving the Hun from the consequences of his acts.

The double-dealing ethic of pawn-broking which has led the Jew on to the conquest of the world is contained in the following (xxiii. 19, 20): "Thou shalt not lend upon usury to thy brother: unto a foreigner thou mayest lend upon usury." This accounts for England's huge War debt! It is a matter of conscience with the Jew to discriminate in favour of his tribe against the white man.

There is another text which shews this double-dealing in another aspect (xiv. 21): "Ye shall not eat of anything that dieth of itself, thou mayest give it to the stranger that is within thy gates, or thou mayest sell it unto a foreigner." This accounts for the Meat-Trust, and for the expensive but inedible bacon sold by the Trust to the unfortunate English during the war! There is yet another text which shows how utterly impossible it is for a Jew ever to be naturalised as a citizen of any Christian country (xvii. 15):

"What is the malign and sinister influence that works against this cause (the independence of Poland) in the Allied counsels? We believe it to be the slimy and secret influence of international finance."—"Morning Post," June 27, 1919.

"Thou mayest not put a foreigner over thee which is not thy brother." This accounts for Cassel and Speyer and other aliens being on the Privy Council, and Rufus Isaacs being Lord Chief Justice of England though none of them has a drop of English blood in his veins. A Jew *cannot* be naturalised.

THE TALMUD IS THE JEWS' GOSPEL.

In the fifth volume of his great work "The History of the Jews," Professor H. Graetz, a Talmudist Jew, describes the great vogue of the Talmud in Poland in the middle of the seventeenth century. The Jews were then in Poland, as they are in every country, a state within a state. The Polish Rabbis "looked down almost with contempt on Scripture." These Jews were extremely pious, but even this piety, says Graetz, was "founded on sophistry and boastfulness." There was trouble with the Cossacks, and the Jews "gave the possessors of the Cossack Colonies advice how most completely to humiliate, oppress, torment and ill-use them" (*i.e.*, the Cossacks). Retribution came at the hands of a Cossack leader, Chmielicke by name, and the Jews were well and deservedly punished and scattered all over Europe. The only quarter in which they were welcomed by a Christian potentate was in the principality of Brandenburg. Out of gratitude for this hospitality the Jews appear to have taken the Hohenzollerns in hand. They have indoctrinated them in Talmudic principles and morality and have so conquered the German mind and soul as to have made Germany the chief military arm of Judaism and Bolshevism.

ZANGWILL ON THE JEWS.

The effect of this "religion" on the tribesmen has been accurately described by one of themselves. In his poem "Israel" this is what Mr. Israel Zangwill has to say of them :—

"Pious, fanatical, zealots, throttled by Talmud-coil,
Impious, lecherous sceptics, cynical stalkers of spoil ;
"Wedded 'neath Hebrew awning, buried 'neath Hebrew sod,
Between not a dream of duty, never a glimpse of God ;
"Blarneying, shivering, crawling, taking all colours and none,
Lying a fox in the covert, leaping an ape in the sun."

Mr. Zangwill as a great Zionist and leader in Israel will now, let us hope, gather Israel together in his own land of Palestine, so that the wanderings of the wandering Jew may cease for good and all.

THE CUCKOOS OF HUMANITY.

Mr. Zangwill has well described the "blarneying, shivering, crawling" type of his co-tribesmen, but there is another, namely, the International Financier which is typified with amazing exactness in that parasite of the feathered world, the cuckoo. This bird takes no trouble to build a nest for itself, but drops its treacherous little egg in the nest of a native English bird which forthwith proceeds to hatch it along with its own eggs. The young cuckoo grows apace and gets most of the food brought by its foster parents to the nest. The proper nestlings are starved, crowded out and finally ejected from the nest by the young

The majority of the names in this list are those of British Vice-Consuls; the offices of Chargé d'Affaires, Consul-General, Pro-Consul, Secretary of Legation, Consular Agent, Commercial Attaché, and Translator are also represented.

Prior to the war in Sweden, 24 of 31 British Consuls and Vice-Consuls were Aliens; in Norway, 20 of 30 British Consuls and Vice-Consuls were Aliens; in Holland (and Colonies) 14 of 24 were Aliens—i.e., less than one-third, or 34 only, of 111, were *British*!

If there is one place where, above all others, an Alien or one with any Alien connections should not be found it is in the British Consular Service.

FRANCE IN THE TOILS: JUDAISM LINKED WITH BOLSHEVISM.

On May 13th, 1919, M. Gaudin de Villaine, a senator of France, made a most powerful speech in the Senate in the course of which he said: "The Russian revolution and great war of 1914-1918 are only phases of the supreme mobilisation of the cosmopolitan powers of money, and this supreme crusade of Gold against the Cross is nothing more nor less than the furious aspiration of the Jew for domination of the world."

"It is the High Jew Bank which has fomented in Russia the revolution prepared by the Kerenskys and finally perpetrated by the Lenins, Trotskys and Zinoviefs, as was yesterday the communist *coup d'etat* in Hungary, for Bolshevism is nothing but Talmudic upheaval."

"The Russian revolution was a Jew revolution, supported by Germany, the cradle of modern universal Jewry, and the Bolsheviks, the executioners of the bloody Russian agony, are all, more or less, of the race of Judas."

"Journals the least suspect of anti-semitism have recognised this fact. By a combination of Big Capital and Bolshevism Judaism is getting ready to conquer the world—such is the prevision of a German journal, the *Deutsche*

"In reply to your further letter of the 31st July last relative to the number of persons of *alien blood* employed in His Majesty's Consular Service, I am directed by Earl Curzon of Kedleston to state for your information that the number of salaried Consular Officers is three hundred and fifty-five, and that the number of *unsalaried Consular Officers is six hundred and sixty, of whom* **TWO HUNDRED APPROXIMATELY ARE FOREIGNERS.**

In order further to elucidate the question at issue I am to transmit to you herewith a copy of the question asked in the House of Commons by Mr. Bottomley, M.P., on the 24th February last, and of the answer given thereto by Sir A. Steel Maitland as representing His Majesty's Government.

With regard to the final paragraph of your letter, I am to state that it is the practice of the Secretary of State to satisfy himself that persons selected for appointment in the salaried Consular Service and, with the exceptions referred to by Sir A. Steel Maitland in his answer to Mr. Bottomley, in the unsalaried Service, are natural born British subjects, and the sons of natural born British subjects.

It would obviously be impossible, without unnecessarily elaborate investigations into the remote genealogy of such persons, to prove that they have no alien blood in their veins."

I am, your most obedient humble servant,

Tageszeitung which writes: 'With the possible exception of Lenin, Bolshevism is directed by Jews. In whatever country it is found, revolution reinforces Jewish influence. To-day Germany is governed directly and indirectly by Jews. Jews are exploiting with adroit vigour the Bolshevist anarchy.'"

"When revolutionary Russia capitulated to Germany, Germany made it give up Russian gold. Why, since the Armistice, have not we taken the same precautions? In view of Sparticist menaces the gold of the German banks was collected at Frankfort, why was it not confiscated as a first instalment? Always the same mysterious influences! Frankfort! this is the Promised Land to which access is refused to unbelievers! It is the Holy of Holies, the Sacred Ghetto, the retreat where there still exists the old and leprous hovel with the sign of the Red Shield."

M. de Villaine's speech created a sensation in the Senate. It is important to note that the Finance Minister of France is M. Klotz, a Jew, of Italy Luigi Luzzatti, and that most of the Finance ministers of other countries are Jews. The Finance Minister of Germany is Herr Dernburg, the finance plenipotentiary of England is, or was, Rufus Isaacs, while the Jew, Edwin Samuel Montagu, presided over the Finance Committee of the Peace Conference.

JEWISH CONTROL OF FREEMASONRY.

The part played by Freemasonry in the Jewish plot of world conquest must by no means be overlooked. Modern historians are beginning to find out that there is a strong family likeness between the exploits of Robespierre & Co.

CONSULAR SERVICE.

5. *Mr. Bottomley* asked the Secretary of State for Foreign Affairs whether he will make it an inflexible rule that British Consuls abroad, whether paid or not, shall be British subjects and shall possess a knowledge not only of the English language but also of that of the country to which they are accredited?

Sir A. Steel-Maitland (Department of Overseas Trade): A clear distinction ought to be drawn between the salaried and unsalaried services. Officers in the paid Consular Service are British born subjects, and this rule will, of course, be maintained. British born subjects are also invariably appointed to unpaid posts in cases where they are the most suitable candidate available. In the past, Consular officers of alien nationality have only been appointed to posts where no suitable British subject was available and where the British interests involved would not have justified the appointment of a salaried officer, entailing a charge upon public funds for which no sufficient return could be expected. Such cases must arise in the future, but the selection of unpaid officers is safeguarded by Lord Robert Cecil's pledge of 22nd August, 1916.

and those of Trotsky, Peter the Painter, Szamueli and Bela Kun. Mrs. Webster, in "The French Revolution: A Study in Democracy," traces the doctrines of the Jacobins to the German Jew, Adam Weishaupt, who adopted the name of "Spartacus" and founded the Masonic Order of the "Illuminati." This was the source of all the worst horrors of "The Terror." Isaac Blümchen in his remarkably candid work, published in 1913, "Le Droit de la Race Superieure" shews how the Jews exercise and keep to themselves complete control of all Freemasonry. This is what he claims, and no doubt rightly claims, for the *modus operandi* in France, which applies equally well to all other countries: "All Masonic lodges are peopled with our Jews, but no Christian can ever penetrate into our Jewish lodges, such as the Goethe Lodge, founded in 1906 by the brothers Dubsky, Fischer and Boucholtz. In these only German and Yiddish is spoken." "It is from this Lodge that will go forth the order which will throw into the streets our 50,000 immigrants, revolver in hand, for the Great Passover, to the sound of German cannons." This did not quite eventuate in Paris, but it has happened in Petrograd and Budapest and the plans are made for all the other capitals as well.

THE JEW CURSE IN SOUTH AFRICA.

Wherever Jews are there can be no rest aud no peace. Wars, disputes, quarrels, strikes, rebellions, revolutions are the Jew's harvests. Therefore he cultivates them on principle. Let us take South Africa.

The Jew was attracted to South Africa first by its diamonds and secondly by its gold. Next he was drawn to

NATURALISATIONS.

OUR ALIEN-LOVING POLITICIANS.

It is difficult for the patriotic Englishman to realise, but the fact has nevertheless to be faced, that for many years before the war our leading politicians have been so completely dominated by the International Jew Financers, that hordes of Aliens, mostly Jews from the Ghettos of Europe, have been permitted not only to invade these already over-crowded islands, but have also been allowed to be naturalised on the shallowest pretext.

When war was declared with Germany, the native British did at least expect that our rulers would call a halt and refuse to naturalise any more of these Aliens. Instead of this, our Jew-controlled Government appears to have worked at high pressure in doling out the rights of citizenship in the shape of naturalisation papers to thousands of alien Jews, instead of deporting them, which was the correct procedure to adopt.

It need hardly be mentioned that the rich Jew always received first preference, and it is said that Home Office officials almost had to work overtime in order to allow International Financiers like Ludwig Breitmeyer, Baron Bruno Shröder and his partner Julius Rittershaussen, to become "Englishmen" within a few days of the declaration of war. No records are yet available as to the numbers of "honours" bestowed on post-war "Englishmen," but provided they have the necessary bank balances, they may rest assured that their merits will not be overlooked.

"Not many years ago the milk distribution trade of London was almost entirely in the hands of Welshmen. Now it seems that the Jewish trader is predominating. The Jews appear to have taken over entirely the tailoring, baking, and much of the other food distributing business in the Metropolis."—"Sunday Herald," Aug. 17, 1919.

INTRODUCTION—*continued.*

it by the huge black population whose weaknesses he could exploit by selling them bad liquor and by using them as instruments of illicit trade. The chiefs of the I.D.B. (illicit diamond buying), and the I.G.B. (illicit gold buying) are Jews, but a Jew is never seen doing penal servitude, the poor whites and the coloured race pay the penalty.

The Jew brought no capital into the country, he did not dig for diamonds or gold, he did not prospect for them, but he has succeeded in getting possession of *all* the diamonds, and he practically controls all the gold. How this control has been brought about has been explained by Sir Lionel Phillips, Bart. In the days before his great merits had become obvious to the Downing Street dispensers of "honours," Phillips wrote letters to his alien partner, Alfred Beit, of the firm of Wernher, Beit & Co., which make it all plain. These letters will be found in the Cape Blue Book.

BEIT-PHILLIPS' LETTERS: HOW WARS ARE MADE.

The first letter shews how the Jews buy parliaments. Special laws were needed to prevent Jew bribery.

June 16th, 1894.

MY DEAR BEIT,—Naturally, whatever we do must be done through others, but I do not think the vested interests can afford to let things drift with indifference. If you trust Rhodes, and cable "See Rhodes," I will run down. My own feeling is to wait and watch, and *spend our money in trying to improve the Raad* (Transvaal Parliament).

"... We have an absolute right to demand the whole cost of the war from Germany ... we propose to demand the whole cost of the war."—Mr. Lloyd George, Bristol, Dec., 1918.

NATURALISATIONS—*continued.*

"The patriotism of Jews is merely a cloak he assumes to please the Englishmen. . . ." is what Mr. B. Feltz says in the "Jewish Chronicle" of December 8th, 1911, and being one of the leaders of the Jewish race, in this country, he, of course, knows.

Even Mr. Lloyd George stated in one of his 1918 election speeches "I have repeatedly said that in my judgment these people having abused our hospitality must not get another opportunity to do so."

But he omitted to state how it was that thousands of Aliens had been able to get naturalised at a time when tens of thousands of Britons were laying down their lives to protect these islands from being invaded by the same people Mr. Lloyd George was naturalising in droves.

The present Lord Chancellor, Lord Birkenhead, formerly Sir F. E. Smith, stated during one of his election addresses that "Eighteen out of twenty Germans were spies" which conclusion he appears to have arrived at after having, as chief law officer of the Crown, successfully naturalised thousands of the very people he so fiercely denounces.

Another prominent Minister, Lord Robert Cecil, stated in 1915 that "the most dangerous Aliens in our midst are those who have got their naturalisation." But he does not appear to have taken any drastic steps to prevent the naturalisation of the very Aliens he waxes so eloquent about. The Jew-devised League of Nations appears to appeal to Lord Robert more than protecting England from being swamped by undesirable aliens.

In this first edition, space prevents us from giving a full list of all Aliens naturalised during the war. The following

The bewaarplatsen question will, I think, be settled in our favour but at a cost of £25,000. It is proposed *to spend a good deal of money in order to secure a better Raad,* but it must be remembered that the spending of money on elections has by recent legislation been made a criminal offence, and the matter will have to be carefully handled.

I am also informed that he said that he (the President) was very angry with the Ecksteins, that Nellmapius was the best friend the State ever had, and now he has gone his widow has nothing, while we have made a large fortune out of him. (Signed) LIONEL PHILLIPS.

BRIBERY FUND NECESSARY: JEWS DODGE LAW.

The next letter shews that Rhodes, one of our greatest Empire-makers, was "not to be trusted" with a knowledge of the Jews' treasonous plots.

Private. *July* 15*th*, 1894.

MY DEAR BEIT,—

POLITICS.

Just got your cable reading "Do not see Rhodes," &c., of which I am rather glad. We don't want any row. *Our trump card is a fund of £10,000—£15,000 to improve the Raad.* Unfortunately, the companies have no secret service fund. I must divine a way. *We don't want to shell out ourselves.*

NATURALISATIONS.—*continued.*

only comprises a selection of those who assumed the garb of British citizenship during the year war was declared (1914), Mr. McKenna being the "-statesman" who approved of these Aliens becoming Englishmen.

He was followed in 1915 by Sir J. Simon, who was so successful in getting such swift military promotion, and who naturalised nearly 1,000 Aliens, while he was Home Secretary, the bulk of whom were Jews.

Major Sir J. Simon was succeeded in 1916 by Mr. Herbert Samuel who piled up the Alien figures by several hundreds, most of whom were Jews. There are many members of the Samuel family in the House of Commons, and it must not be forgotten that the Montagus (Swaythling) belong to the same tribe. It will not be forgotten that it was Mr. Samuel who said the "Unseen Hand" was a myth.

Sir Geo. Cave then came on the scene, and his handling of the Alien question is too well known to need any remarks. Home Secretaries draw £5,000 a year from the British taxpayers, so it is quite a pleasant position to hold. No real Briton has ever seen the slightest necessity to naturalise *any* Alien during the war, but these well paid Home Secretaries have thought fit to firmly plant on British soil—while our own flesh and blood were being killed by the hundreds of thousands—a host of undesirable Aliens, the vast majority being Jews, and a horde of International Financiers like Schröder, Rittershaussen, Ludwig Breitmeyer, Carl Langer, etc. It would be interesting to know how many of these war-naturalised Aliens fought for England in return for the greatest honour we could bestow on them.

Who said the "Unseen Hand" was a myth?

"All Masonic Lodges are peopled by our Jews, but no one ever penetrates into our Jewish Lodges . . . in which only German and Yiddish are spoken."
—Isaac Blümchen.

In spite of these letters, or, more likely, on account of them, the writer was awarded one of our chivalrous hereditary titles! This letter shews the Jews plotting behind the backs of Boer and Briton alike. Rhodes was not to be "trusted" with their filthy secrets: he knew nothing about them.

THE JAMESON RAID.

A further letter shews the same Jews planning armed rebellion and only waiting to find dupes—that is to say, Englishmen, or as Phillips would say "others"—to carry out their plans, having, of course, not the slightest intention of fighting themselves.

That was over a year before the Raid was actually brought about. Boer and Briton always got on well together before the Jew intervened. The Jews floated a company to run the Raid, and a subsidiary company, the "Wolff Syndicate," and made money out of both! And much more important than that, the Raid produced a slump on the Stock Exchange, and Beit, Phillips' partner, who had been rigging the market in London for months before, made a million out of the slump! It was this same alien, Beit, who would have failed to make this million if there had been no Raid, who sent the telegram to Jameson saying that an

immediate advance was imperative. It was !—in the interest of Beit and the Jews. But it should be noticed in passing that a number of Englishmen's lives were sacrificed to secure the Jews' profits. Moreover, the same gang of Jews betrayed the raiders by informing the Boers, and so ensured the failure of the expedition, the Jewish "Reformers" having failed, as might have been expected, to go out to help them as they had promised.

The success of the Raid from the point of view of Jew finance was so great that the Boer war became inevitable. The Jews had in their hands all the power to bring it about. They had succeeded in breaking the friendship between Jan Hofmeyr and Cecil Rhodes, which had been until then the symbol of unity between Briton and Dutch.

At the conclusion of the Boer war the triumph of the Jews was duly recognised by their political confederates at Westminster in the shower of baronetcies which fell upon them, "honours" which were properly acknowledged beforehand by golden streams which flowed into the secret party chests.

Having secured control of all the gold and diamonds of South Africa, the Jews of the Transvaal with the Jew Banks of Germany set about to capture control of all South African trade as well. As an example of how they have succeeded take the Victoria Falls Power Company, with its huge plant. With the exception of the boilers, practically all the machinery is German. The Jews are a race who toil not neither do they spin; but they do reap. Apart from the money itself "control" is their one aim. Take the Rand Mines Limited, which has a small capital (£550,000). It has secured control of a vast number of other companies.

INTRODUCTION—*continued*

The invention of "Bearer Shares" is also a device of the Jews: it prevents shares from being traced, and provides an ideal means of share-manipulation.

THE FOUR NEW COMMANDMENTS.

It will be useful to keep in mind the immortal rules or commandments of the prophet of the Newest Jerusalem revealed in the Phillips-Beit correspondence. There are four of them:—

(1) "Whatever we do must be done through others"—that is to say—use officials such as Prime Ministers and Ministers not quite prime, First Lords, War Ministers, &c., and Christian partners.

(2) "Spend money in improving parliaments"—that is, spend the people's money in bribing and blackmailing the people's "representatives."

(3) "We don't want to shell out ourselves"—*i.e.*, Make Christians pay.

(4) "Now he has gone his widow has nothing, while we have made a large fortune out of him," *i.e.*, Jews to make fortunes out of Gentiles' ruin.

In this manner Jews have been able to secure the monopoly of trade throughout South Africa in alcohol, tobacco, dynamite, newspapers, theatres, and cinemas, to name but a few items, in addition to their grip on gold and diamonds. There is practically not a theatre or cinema in all South Africa which is not controlled by an American Jew, I. S. Schleisinger.

If we now turn our eyes to Europe we see the same gang of Asiatic aliens at work in exactly the same way.

"Germany had been preparing for years. She had been preparing in a direction which we hardly suspected."—Mr. Lloyd George, House of Commons, June 23, 1915.

The grave danger is that they may be swept into England.

The lines of communication are held by the Jew firm of Wolff in Germany and their co-tribesmen Reuters for England. It is impossible to send a wireless message of the most secret character without passing it through the control of Godfrey Isaacs' monopoly. The Jew bankers of Frankfort have their agents and relations in London and are of the same Ashkenazi family as those who have made such depredations in South Africa. The same alien power controls almost the entire newspaper press of the Continent, and either directly or through advertisements a great portion of the daily press of this country as well. If the Jews of South Africa made such huge profits out of the Jameson Raid, the Boer war and the Rebellion, what must they have made out of the World War ? The latter was just as much a Jew War as the Raid was a Jew Raid and the Boer war a Jew war. The German army was merely a weapon of the Jew Banking Combine.

POGROMS.

According to *The Jewish World* of July 16th, 1919, the situation even in Germany has become so strained that there has been a threat of pogroms even in Berlin itself.

"No Berlin Jew a few years ago," says *The Jewish World,* "would have imagined it possible that Pogroms could take place in the capital of Germany."

It would be a thousand pities if such a thing should become possible in this country, as though there are people who advocate such extreme measures, history has proved that they have never produced the desired results. Though Russia, Poland and other distant countries have had Pogroms

OUR JEW-DOMINATED PRESS.

No better illustration is afforded of the undesirable influence of the Jewish money-power in this country than the extent to which it dominates the London Press, and is able to command the services of London journalists. It is owing to this alien domination of a considerable portion of the London Press and Pressmen that our country has for so long served as a dumping ground for the human sewage of the world. With few exceptions the London daily journals have for years been accustomed not only to oppose the movement for stopping the swarming hither of the criminals, harpies, prostitutes, paupers, anarchists and other offscourings of the continental slums and ghetti, but to omit from their reports of alien vice, treason, and crime everything likely to indicate the offenders' real racial origin! And while denouncing the movement designed to exclude alien undesirables these same newspapers strive their utmost to promote the emigration of the flower of our native population. In order to make room for the tribesmen of Trotsky and Bela Cohen, our Kosher Press even demands that the lads who have fought for their country should be encouraged to exile themselves, and when the Colonial Department, which is now in charge of two ex-journalists of semi-alien origin, announced its willingness to defray the emigration expenses of ex-soldiers, every Jew-inspired newspaper in the metropolis heartily applauded.

And what is true of alien immigration and British emigration is equally true of every other matter in which Jewish interests are involved. With a few brilliant exceptions, the London newspapers can always be depended on to support Jewish rather than British interests, and to adopt a Jewish rather than a British attitude.

"Our business is to keep foreigners from fooling us."—Admiral Blake, 1653.

for years, they have not however got rid of the Jews, but what has been done, through the medium of the Jew-controlled Press of the world, is to raise resentment in the minds of the Christian races, who have been led to believe that the Russians and Poles were bloodthirsty, cruel people—which is the very reverse of the case—and that the Jews were a harmless, downtrodden, persecuted race who were refused even the right to live.

SEGREGATION THE ONLY CURE.

There is only one cure for this world-evil, and that is for all the Christian white races to combine and to repatriate to Palestine and the neighbouring territories every Jew, male and female, and to take the most drastic steps to see that, once they have founded their Zionist state in their own Promised Land, they permanently remain there. This would leave the white races with the half-bred Jews, so many of the tribe having, for purely financial and political reasons, married their women to Christians; but in the course of a few generations the Jew blood would be eliminated and the original stock re-established. The policy of advocating Pogroms must be put down with an iron hand, as the bloodshed and the cruelty they entail merely debases Jew and Christian alike. It must be remembered too that Jews have as much right to live as Christians, but as the Jews always have and always will remain aliens, and refuse to become absorbed by the white races, the latter have a perfect right to treat them as a world-menace and to protect themselves.

... "... **Germany, however, is most anxious to 'honour' us with an ambassador straight away. Her choice is said to have fallen on Herr Eduard Bernstein. ... He is also a Jew which Germany holds will open many financial and trade portals to him in this country."**—"Sunday Chronicle," July 20, 1919.

OUR JEW-DOMINATED PRESS—*continued.*

The sale of titles to wealthy Jews, the bribery of political parties by Jews, the Jew-conducted white-slave traffic, the evasion by Jews of military service, the exploitation of the war by Jew army contractors, the appointment of wealthy Jews to high Government office, the championship of German interests by Jews, and the financing of the various anti-national and revolutionary movements by Jews are all scandals which have been exposed and attacked only by those few journals in London which are free from Jewish influence. During the past few months we have had an example of the ease with which the Jews are able to influence the Press in the daily reports of alleged massacres of Jews in Poland, and which are proved to have been manufactured by German Jews in order to create prejudice against our ally Poland. But with the exception of the *Morning Post*, the *Globe*, the *New Witness*, and a few other publications under British control, no London journal has ventured to inform its readers of this. Our Kosher Press has devoted more space to the shooting of a few Jew anarchists and to the mobbing of a few' Jew food speculators than to the slaughter of a million Armenians by Enver Pasha and company, or of a hundred thousand Russian officers and intellectuals by Trotsky and Lenin.

THE JEW AND *THE TIMES*.

The London dailies known to have persons of Jewish origin among their proprietors or principal share-holders are as follows:—*The Times*: Among its Jew shareholders is Mr. Henry Arnholz, who owns a large number of shares. Ever since the services of the late John Delane, a former editor, were commanded by the late Baron Lionel Rothschild, *The Times* has had marked semitic leanings, and this pro-semitism perhaps explains its loss of influence and inability to regain

"Those who started the war must pay to the utmost farthing, and we shall search her pockets for it."—Mr. Lloyd George, Newcastle, Nov., 1918.

It is of vital importance to see that the Jews do not leave their country once they are established there, and for this purpose the "League of Nations," which at present is simply a Jew-devised and Jew-controlled affair, should be transformed into a "League of *Christian* Nations," and be given the task of seeing (1) that no Jew leaves the Promised Land; (2) that no Christian enters their country. Similar tactics as to segregation are being adopted in South Africa with regard to the natives there, and in dealing with the Jews, nothing short of complete segregation will avert the menace, destroy the all-polluting International Finance, and permit the Christian races to live at peace with each other.

And some Germans have found it out. Here is a passage from a leaflet now being distributed by the German soldiery printed in *The Jewish World* of January 15th, 1919 :—

> "The International Jews impelled the nations into the great war in order that they themselves might make milliards of money on war supplies.
>
> "The Jews have then undermined the strength and bravery of our glorious army by systematic agitation; they have egged the German people on to revolution so that they might be able in the general chaos to get hold of some more millions of Germany's national wealth.
>
> "The Jews want to rule the German people so as to be able to plunder them still more.
>
> "The German Republic is being fettered by Jews. It is no German Republic but a Jew Republic.
>
> "A Jew Republic in which the Germans are graciously permitted to work for the Jews.
>

the position it at one time held when it was owned and controlled by owners of purely British blood. It has at times bitterly opposed the movement for restricting Alien immigration, and, of course, favours British emigration, including that of our ex-soldiers. Long after the war started, and Hearst's *New York American* had distinguished itself as the chief American anti-British and pro-German organ, *The Times* announced that " arrangements have been made whereby the *New York American* has the sole rights of reproducing *The Times* war cables and other war news in the United States."

Mr. Hearst, who is described by Sir Sidney Low as being " one of the most consistently virulent enemies of England and all things English to be found anywhere," not only believes in conducting an anti-British campaign in America, but is now largely interested in papers published in England, *Vanity Fair* and *Nash's Magazine* being two of his latest exploitations. Not content with corrupting our people with anti-national literature he now proposes, through the medium of the greatest educational instrument ever invented, namely, the cinema, to enlighten the coming generation of Britons on the advantages of the Jew-devised and controlled League of Nations, and to broaden their views with " Lasky " films, which are produced by a huge International combine which is anything but British in sentiment.

THE *DAILY TELEGRAPH* AND ITS JEW OWNER.

Another glaring instance of the control of our press by the Jews is the *Daily Telegraph*, which is owned and conducted by Lord Burnham (Levy-Lawson, formerly Levy). His Lordship formerly represented an East London Yiddish constituency in Parliament, and was one of the founders of the Jewish Shop-

German Soldiers!

> "Save the German Fatherland, save the German people from its WORST AND MOST PITILESS ENEMIES, save it from the JEWS!"

This is all solid truth, and the sooner English people get their gaze removed from the real German and fixed on the real culprit, the Jew, the sooner will they understand the War, the Armistice, the terms of Peace, the Hidden Hand, the Jew-devised League of Nations, and why neither France nor England is receiving its rightful indemnity. Jews domiciled in Allied countries are not going to bleed German Jews as long as there are Christians to be bled in any country.

The 'JEWS' WHO'S WHO' is a call to all true Englishmen to rouse themselves and to eradicate the International alien influences which are swiftly and surely crushing the very life-blood out of this great Empire of ours.

The only method of doing this will be to repatriate all Jews to their own country of Palestine at the same time taking drastic precautions to see that they remain there.

"If any danger of strained relations (with Germany) did exist, it did not arise from any action of the Government, but from irresponsible utterances such as that of Lord Roberts in Manchester, which must have done harm."—Mr. F. D. Acland (Under Secretary for Foreign Affairs), Rochdale, Nov. 23, 1912.

"Mr. J. Brown, a member of the local (Hackney) Board of Guardians, said that in twelve months that body had paid out to the wives of interned aliens in the borough £3,544, and to the dependents of Russians, £1,150."—"Morning Post," Sept. 11, 1919.

"I have no doubt that during this contest . . . every attempt will be made to take us away from the real point. . . . We shall have all the scares again about the Navy and not being able to sleep quietly in our beds."—Sir Rufus Isaacs, K.C., M.P. (afterwards Lord Reading), Reading, Nov. 21, 1910.

keepers' Association, which was designed to oppose legislation not conducive to Jewish interests. While the *Telegraph* has had little to say respecting the influx which has polluted our country with new industries like the White Slave Traffic, it strongly supports English emigration, and its proprietor has contributed generously towards the expense of emigrating what he has described as men of the " picked class." In its reports of crime his lordship's paper invariably describes the Jewish swindlers, souteneurs, procurers, brothel-keepers, murderers, &c., as Russians, Poles, Austrians, Roumanians, or Germans. As the *Daily Telegraph* poses as a Conservative organ, it may be worth remembering that its proprietor was once elected to Parliament by another East End constituency as a Radical, and in addressing a Jewish meeting there he asked, " Who was it that fought for the Catholics and the Jews when they were oppressed?" And then observed, " The Tories wished to fetter the interests and energies of both."

Another prominent London journal is the *Daily Express*, which has among its shareholders of Jewish origin Sir Ernest Schiff, and Messrs. Ernest Kessell, F. G. Lindl, and Ralph D. Blumenfeld. The last-named is an ex-American, and is editor and one of the directors. The *Express* once described the German waiters in England as desirable aliens, and was one of the chief supporters of the Jew-inspired movement for importing negroes to take the places of the Englishmen who were fighting for their country. The *Express* approves of British emigration, and a few years ago paid the emigration expenses of a number of Englishmen.

The following quotation from the *Evening News*, Sept. 8th, 1914, is worthy of notice as an illustration of the pro-semitic leanings of the Northcliffe Press:—

" But Messrs. Siegenberg, who are now known as Curzon,

"Jews who pretend that they can at once be patriotic Englishmen & good Jews are simply living lies."—Mr. B. Feltz in "Jewish Chronicle," Dec., 1911.

are English, and have always been English, and therefore deserving of British custom."

THE DAILY GRAPHIC AND THE JEWISH CHRONICLE.

The *Daily Graphic* is owned by a company which includes among its directors and shareholders a wealthy Jew-lawyer named Israel Davis, who is Chairman of the Company that owns the *Jewish Chronicle*, the organ of the Jewish nationalists. Mr. Lucien Wolf, a prominent Jewish nationalist, was formerly one of its editors. The *Daily Graphic* strongly favours English emigration, and has published many articles in opposition to the restriction of foreign immigration, including one in which it said: "Even if the Jewish aliens were far inferior to the people among whom they settle there would still be considerable argument for admitting them, merely on the ground that they are different." During the war we found out to our cost and disgust the various ways in which Mr. Israel Davis's tribesmen are "different." Before the war the *Daily Graphic* was strongly pro-German, and in its issue of July 15, 1908, it observed: "German newspapers are making hugely merry over the attack of "spionitis" from which a section of our gullible public are just now suffering. "Spionitis," we must explain, is bastard German for "spy mania." Were the affliction confined to our yellow-newspapers and Navy Blue reviews we should feel disposed to laugh with our Teuton friends, but it has spread extensively, and one cannot enter a drawing room or join a dinner-party without hearing the most fearsome stories of the legion of German spies the Kaiser is naively alleged to have let loose on this once happy land."

"The first thing we do, let's kill all the lawyers."—Shakespeare, in Henry IV., Second part, Act 4.

THE WESTMINSTER GAZETTE AND MOND.

The most ardent Free Trade journal in London is the *Westminster Gazette*, but when it is known that the bulk of its shares are held by Sir Alfred Moritz Mond and his family, and that Sir Charles Henry is interested in it also, its political atmosphere is not surprising. The editor, Mr. Harold Spender, is partly of Spanish descent, and is a connection by marriage of the German Jew financier, Schuster, who in the *Westminster Gazette* of Aug. 3, 1914, declared that "The participation of this country in the war between continental nations will be a greater crime (than the Crimean War), and the penalty will be infinitely more severe." The *Westminster* has, of course, always opposed immigration restrictions, and may be said to be truly international in character.

Other papers in which Sir Alfred Moritz Mond has been or is financially interested are the *Cambria Daily Leader* of Swansea, *Wales*; the *English Review*, and the *National News* In the latter paper he was closely associated with his relative Godfrey Isaacs, the editor being the Hungarian Jew, A.M. de Beck

In Labour circles the *Daily Herald* is now the leading paper, but, unfortunately, this journal has also been largely financed from time to time by international Jews and other Aliens who are anti-British and anti-national in sentiment. Both Baron de Forest, the adopted son of Baron Hirsch, and Baron von Horst, who was deported a short time ago, have financially supported this paper, with the result that instead of the British working classes having a decent sound national paper to fight their many and legitimate grievances, their views have too often been placed before the public from an International-cum-Bolshevik standpoint instead of from the British point of

view. Mr. Lansbury is the present editor, and it is admitted that he is anxious to right the many wrongs of the British working classes.

To conduct a daily paper in these days requires a great deal of capital; the average worker naturally has none of the latter commodity, the British capitalist will not finance a paper run in the interests of Labour because he wrongly thinks it is against his interests to do so, so recourse has to be made to the Internationalist, who is ever ready to subsidise any concern he can control, and which will foment discord among the natives of the country in which he is temporarily domiciled. The result is that national and British labour is never properly represented, and the public usually gain a perfectly wrong view of Labour's legitimate grievances.

The remedy for this grave evil is for the true British capitalist with the national interests at heart to combine with the true British Labour Leaders and the Trade Unions, and to subsidise papers pledged to support the interests of genuine national British labour. By so doing they will eliminate the International element which is out to produce anarchy, which no genuine British worker wants to see.

THE DAILY NEWS AND STAR.

The London papers in which Jews are concerned as owners or shareholders are, of course, not the only publications that have pro-Jew leanings. The *Daily News* and *Star*, for example, although formerly controlled by Jews, are now supposed to be the property of some wealthy political Quakers who regard with horror and indignation any suggestion that the country they make their money and cocoa in is not invariably in the wrong. But both these Cocoa organs have a

large circulation among Jews ; Jews are among their writers, and they enjoy the advertisement patronage of all the vendors of hairgrowers, sovereign cures and infallible remedies belonging to the "Chosen Race." Both papers have always bitterly opposed the restriction of undesirable alien immigration, and on one occasion the *Star* was especially praised by the *Jewish Chronicle* for the care with which it is accustomed to eliminate from its reports of alien vice and crime any reference to the offender's racial origin. It was the editor of the *Daily News* who wanted us to remain neutral in order that "we should be able to trade with the belligerents," and "capture the bulk of their trade in neutral markets."

During the last year or two the two London dailies which have been conducted with the greatest amount of regard for British interests, and the least inclined to pander to Jewish racial susceptibilities, are the *Morning Post*, owned by an English woman, Lady Bathurst, and the *Globe*. Unfortunately, however, the *Globe*, which was formerly financed by Mr. Samuel Samuel, M.P., the oil magnate, but subsequently passed again into English control, is now reported to have been purchased by Mr. Robert Donald, who was the editor of the *Daily Chronicle* during the years when it was the bitterest opponent of the declaration of cotton as contraband of war, of the Compulsory Service Act, the Internment of Alien Enemies, and, of course, the imposition of restrictions on the influx of persons belonging to the "chosen race."

Of the various political weekly journals published in London only a very small proportion are free from Jewish influences. The *National Review* is doing sterling good work in exposing the International Jew plot to dominate the world and destroy

Christianity, while, on the other hand, the *New Statesman* throws its pages open to Lewis Namier (formerly Ludwig Bernstein), who is employed by and one of the pets of our "too Foreign Office," and writes in the interests of his tribesmen against our ally Poland.

The following prominent Jews are closely associated with the press of Britain and her Empire, and the Newspaper Press Fund, Lord Burnham (Levy Lawson, formerly Levy), Sir Geo. Lewis, of Lewis and Lewis, who is solicitor to a large number of daily papers in London, Sir Edw. Stern, Sir Adolf Tuck, Sir Marcus Samuel, Sir Alfred Moritz Mond, Baron d'Erlanger, Messrs. Otto Beit, R. D. Blumenfeld, Godfrey Isaacs, Max Michaelis, E. A. Strauss, and Frank Tiarks, the partner of Baron Schröder.

With such an array of Askenazi press patrons and newspaper proprietors, it is not surprising that the native English have had little say in the affairs of their own country. The Jew soon discovered that the pen was mightier than the sword, and that is why he took early steps to control the press. He never takes part in the sword work but carefully leaves that to the native English, and he never forgets the motto of the great Jew historian Sombart, that "Wars are the Jews harvest."

"*I, ——, swear by Almighty God that I will be faithful and bear true allegiance to his Majesty King George the Fifth, his heirs and successors, according to law.*"—Oath of Allegiance taken on Naturalisation.

"*Mr. Lloyd George has long been regarded throughout Europe as the Bolshevik's friend.*"—"National Review," July, 1919.

"Almost 2,000 Jews (chiefly Russians), fugitives from France and Belgium, have been received at the Jewish shelter. The Locl Government Board (Mr. Herbert Samuel) has allocated a large workhouse in Poland Street for the refugees."—"Daily News," Sept. 14, 1914.

Definition of Alien.

"Belonging to another place, Foreign, not of one's own."

"Belonging to another Family, Race or Nation."

Murray's Dictionary.

"There is no shadow of doubt that alien agents, chiefly Russian and German Jews, have been busy in our great industrial centres, cunningly stirring up trouble and working for industrial chaos."—"Morning Post," July 8, 1919.

HONOURED JEWS AND TITLED ALIENS.

With the exception of Sir David Goldsmith-Stern Salomons, the oldest creation in this list is 1883 (Jessel). In 1885 the patent of nobility was conferred on Lord Rothschild, and the Jew "conquest" of England—as far as financial domination goes, and, through finance, political domination—may be said to have been established as recently as the early 'eighties. Prior to that date, the British people were governed in the main by people of their own flesh and blood, and the terms of the Act of Settlement of 1700, which prohibited Aliens or the sons of Aliens from holding any office under the Crown were adhered to.

The discovery of gold and diamonds in South Africa in the early 'nineties attracted a swarm of Askenazi from all parts of the world to England and her Empire, and it will be noted that the bulk of the hereditary and other titles of Chivalry have been conferred since 1900, it not being till then that many of our titled Jews were able to amass the enormous wealth they now possess.

This list does not profess to give all the names of Jews who have received Orders of Chivalry, but it proves how steady has been the onslaught of our Jew "conquerors" in recent years.

A few of those mentioned have rightly and honourably earned their distinctions by gallantry or virtue, but it will be noticed that the majority of the acquired their titles through "control" of finance.

A few are not of the Jewish race and are inserted because they are either Alien born or are the sons of Aliens.

"Jews are said to be revolutionists because the present anarchical upset gives them the best chance of getting rich."—"Daily Telegraph's" Berlin correspondent, quoted in the "Jewish World," July 16, 1919.

ARITHMETIC.

Twice one is two,
    Twice two is four,
But twice two is ninty-six, if you know that way to score!

Half of two is one,
    Half of four is two,
But half of four is forty per cent., if your name is Montagu.

"New Witness," Aug. 1919.

The Act of Settlement of A.D. 1700.

OUR GREATEST BIRTHRIGHT.

This Act Permitted

"No person born out of the Kingdoms of England, Scotland, or Ireland (*although he be naturalised*, except such as are born of English parents) shall be capable

> **To be of the Privy Council or to be a Member of either House of Parliament, or to enjoy any office or Place of Trust either Civil or Military, or to have any Grant of Lands, Tenements, or Hereditaments from the Crown to himself or to any others in trust for him."**

Three days after War broke out *(August 7th, 1914)* the Government so repealed this Act as to place us at the mercy of the Alien International Financier.

The *ACT OF SETTLEMENT* of 1700 was *passed* to *protect* Britons against Alien control.

It was *repealed* to allow the International Jew Financier a free hand to exploit us.

BRITONS! YOUR ANCESTORS PROTECTED THEIR BIRTHRIGHT.

REGAIN AND RETAIN YOUR OWN!

"There was a time in England when foreigners were on a distinct and inferior footing to natives. They were well treated, but the trade and industry of the country was maintained in British hands."—"Morning Post," Dec. 4, 1917.

THE JEWS' WHO'S WHO.

THIS volume does not profess to include all the Jew financiers operating in England, neither does it embrace anything approaching the full extent of their financial interests. The details given have purposely not been brought up to date, as the object of the compilers is to show to the British people how stupendous was the grip a comparatively small number of Jew financiers had prior to the war over our Empire and national life. That grip has vastly increased during the war, and if this book shows Englishmen the source of the sinister influences now so prevalent, it will have attained the object for which it was compiled.

USE OF TERM "DIRECTOR."

Throughout the book, for the sake of brevity, the individuals mentioned are all classified as "Directors," no distinction being made when they are Chairmen, Trustees or members of the London Committee.

DEBENTURES.

Mention of these is seldom made throughout the volume, but the amount issued by the various Companies amounts to many millions.

When individuals other than Jews are mentioned, they are usually included in order to show their connection with International Financiers.

ALBU, Sir George, Bart., Cr. 1912.

Like so many of our titled Aliens, is an Askenazi, and hails from Germany. Prior to the war, was decorated by the Kaiser with an important order. Born Berlin 1857, and educated in the same city. Resided amidst the diamond fields of Kimberley, 1876-91. Brother to Leopold Albu, who is domiciled mostly in England. His brother-in-law is Hans Rosendorff, who was the very active Secretary of the German Navy League in Johannesburg. The patents for Sir George's hereditary title were handed to him in 1912, by the Radical Government, who were working at high pressure about that time selecting Jews with large bank balances for 'honours.'

In olden times, Hereditary orders of chivalry were usually granted to brave or learned people, as can be verified by inspecting the roll of names at Battle Abbey. On this can be seen inscribed the names of the valiant knights of the 1066 conquest. Since the Jew 'conquest' of England, a different system prevails, and if you are an Alien by birth, are International in character, and have a big bank balance, there is nothing to prevent you from becoming a peer of the Realm, and being given a seat on the Privy Council in addition.

"Why cannot we say that aliens shall not be eligible to sit on British juries—one of the most idiotic anomalies of our constitution?"—Mr. Bottomley, H. of C., April 15, 1919.

The following letter was sent to Sir George Albu, Bart., in 1915 by the Chairman of the "British Citizen Movement," a Society established in South Africa to eradicate Alien influences :—

11, Grosvenor Chambers,
Loveday Street,
Johannesburg.
24th July, 1915.

ALIEN FINANCE.

Sir George Albu, Bart.,
Chairman, United Engineering Co., Ltd.,
Johannesburg.

Dear Sir,

As one of the "irresponsible persons" you had the effrontery to refer to in your speech at the meeting of shareholders of the General Mining and Finance Corporation, which was attended by a few of your clerks, I address you these few lines.

From your remarks I gather that you and your cosmopolitan conferes consider that anyone who dares to criticise the methods and motives of the financial mining houses of the Rand is considered not only "irresponsible," but to be guilty of "vicious reasoning." I take it that the public are justified in assuming that you, as the head of one of the Rand mining groups, are a "responsible" person. You are! You ask what is "alien finance." From the point of view of the average British citizen this is finance controlled by people who, by their actions or sympathies, act contrary to British ideals and interests.

The finances of the Corporations you control are considered "alien" because :—

(1) You have deposited in German banks large sums of money through Mining Companies you control when you knew that British banking institutions could have utilised the money with advantage to South Africa and the State generally.

(2) You have acted as Chairman of the United Engineering Company, a concern practically owned by Krupps, and after the outbreak of war took no steps to close up a business which is financed entirely by our enemies.

(3) A close relation of yours—Hans Rosendorff—has acted as secretary to the German Navy League, apparently with your hearty co-operation, as he has been very closely associated with you for years.

This should prove to you why the British public consider that you have "alien" interests. Can you wonder, therefore, that even the title you obtained is also considered "alien." Until recent years such honours were only won on the field of battle or given as a reward for some great service to the State. Valour and virtue were the essential qualifications. Enlightenment in regard to your particular services in this respect would be interesting.

"Mr. Churchill in addressing a Jewish audience at the rooms of the Achei Brith Society on Sunday evening, appealed for their support on account of the work he had done for Jews in connection with the Aliens Bill."—"Manchester Guardian," Jan. 9, 1906.

You ought to be congratulated for not having changed your name, if for no other reason than because of the confusion created when so many "British subjects" dropped their Teutonic names for Anglo-Saxon ones when they thought it paid them to do so.

Perhaps you will now understand what the average British citizen considers as "Alien," and why it is of such vital necessity to form a "British Citizen Movement," particularly in South Africa, where "alien finance" is so ramified and deep-rooted.

Yours faithfully,

(Signed) H. H. BEAMISH.

BEIT, Alfred, Life Governor of De Beers, Director of British South Africa Co. Born Hamburg 1853.

Head of the Wernher, Beit, Eckstein group, which concern—through the Companies it controls—is interlocked with and controls, more mines and land than any other "group" in South Africa.

To give an idea of this control of land, one of this financier's Companies—the Transvaal Consolidated Lands—held as long ago as 1897 some 2,000,000 acres of the most valuable agricultural land in what was then the Transvaal Republic. It can therefore be readily imagined how great is the control of the Wernher, Beit, Eckstein group to-day, and how devastating the effect has been with so many of South Africa's assets in the hands of this group of Internationalists.

Sir Lionel Phillips, Bart., and R. V. Schumacher (now Ffennell) are the two chief representatives of the vast Wernher, Beit, Eckstein interests to-day. A monument to commemorate Mr. Beit has been erected in Kimberley, not that it is likely that his influence or name will ever be forgotten by either Briton or Boer.

Mr. Beit is one of the leading spirits in the Wernher Beit Eckstein group of international financiers, and his financial interests are enormous. A perusal of the Beit Phillips correspondence (see introduction) and their connection with the Jameson Raid and the consequent Boer war will show how heavily the hand of the Beit family has rested on South Africa. A monument has been erected to Alfred Beit (naturalised 1898, i.e., *after* the Jameson Raid) in Kimberley, and it is to be hoped that it will always remain there as a lasting memento of the havoc caused to South Africa by the gang of International Aliens who have so successfully exploited that grand country in their own interests to the detriment of Boer and Briton.

In addition to his enormous interests in South Africa—through the Wernher Beit Eckstein group—is a member of Advisory Board Victoria and Albert Museum; member of General Council National Physical Laboratory. Is also a trustee of the Rhodes estate, and as such, is able to nominate students for the Rhodes Oxford Scholarships. Resides mostly in England and in addition to his London residence, has a country seat in Herts.

BURNHAM, (Lord) Edward Levy Lawson, Cr. 1903.

Elder son of Joseph Moses Levy, by Esther, dau. of Godfrey Alexander Cohen. Assumed the name of Lawson, 1875. D.L. and J.P. for Bucks. Principal proprietor of the "Daily Telegraph." President of Institute for Journalists. He formerly represented an East London Yiddish constituency in our Parliament, and was one of the founders of the Jewish Shopkeepers' Association. He,

and his newspapers, are strong advocates of English emigration, while saying practically nothing about the evils of Alien immigration. The "Daily Telegraph" is accustomed to carefully omit from its reports of Alien crime and vice, anything which may indicate the real racial, i.e. Jew origin of the creatures it describes as Russians, Poles, Rumanians, Austrians, or Germans.

Prior to the War, it was estimated that, including the officials at the Russian Embassy, there were not more than 100 genuine Russians residing in Great Britain, but thanks to the "Daily Telegraph" and other Jew owned or controlled papers, the public has been led to believe that the hordes of Jews who have invaded this country for years past from the late Czar's dominions, were real Russians.

These "Russian" Jews are as "Russian" as a Jew, Chinaman or Negro born in England, are "English." Nobody knows this better than the Jews themselves, and when their own official organ "The Jewish World," of September, 1915, states that "No one, for instance, would call a child of Japanese or Indian parentage a person of English nationality on the strength of being born in this country, and the same consideration is applicable to the Jews," no further proof is needed that a Jew can ever become an Englishman, Russian, French, German, or in fact, anything but a Jew; thus proving how correct is the slogan, "Once a Jew, always an Alien."

It is little wonder that for years past the true Russian has not trusted the English people, but they are now gradually beginning to realise that we are nearly as Jew ridden as they are, and that the bulk of our daily press is directly or indirectly controlled by the same tribe from which come the Soviet leaders in Russia to-day.

The power wielded by this Baron over the press of Britain is simply stupendous, and it is only those familiar with the inner workings of the journalistic world who know the enormous power this one Jew possesses.

Son of Jacob Cassel, of Cologne. Educated at Cologne. Has enormous interests in Egyptian Govt. Irrigation Trust. Is largely interested in the Assouan and Assiout dams which cost nearly £5,000,000. It was to test his right to sit on the Privy Council of England that Sir Geo. Makgill took a test case. The Chief Justice (Rufus Isaacs) stated that the Act of Settlement which prohibited Aliens from being Privy Councillors, was "repealed by implication" by Mr. Asquith on Aug. 7, 1914! Subscriber to the fund "to aid Innocent Alien Enemies in Great Britain."

Order of the Crown of Prussia (1st Class). Order of the Red Eagle of Prussia.

Director of EGYPTIAN GOVT. IRRIGATION TRUST. Certificates issued, £2,714,700.

His only other co-Trustee in 1914 was Lord Hillingdon, of Glynn Mill, Currie & Co. This shows the interlocking of Askenazi finance with English finance.

The wealth of this Jew financier is difficult to estimate, but there is no question that he is one of the wealthiest Jews of to-day. He has moved in high circles in the social world, and more than one Royal Court has patronised him.

Subscribed £1,000 to the Kaiser Jubilee Fund of 1913, the other subscribers of a similar amount being C. A. Bingel, L. Breitmeyer, Sir Edgar Speyer, Dr. Ernst Schuster, and Mrs. Frank Tiarks, whose husband is a partner in Schroeder & Co., and a director of the Bank of England.

The following holders of British chivalric titles also subscribed to this fund, which was to "*be a further help to unite the different German populations in Great Britain and Ireland, who are one in the common bond of love to the German Fatherland*":—Sir Carl Meyer, Bart., £500; Baron Schroeder, £500; Sir Edgar Speyer, Bart., P.C., £1,000; Sir Sigmund Neumann, £210; Sir Hermann Weber, £50; Sir Felix Semon, Sir Otto Jaffe, Sir Joseph Jonas (now Mr. Jonas).

It will be noted that the bulk of these patrons are Jews, and that most of them hail from Frankfort.

He is Chairman of the Company which owns the "Jewish Chronicle." Messrs. Baines are the proprietors of the "Daily Graphic," the "Graphic," and the "Bystander," and other publications, which in pre-war days were as bitterly opposed to the stoppage of undesirable alien immigration as is the "Jewish Chronicle." Their views on this subject have undergone some

"Bolshevist Leaders did not represent Russian Working classes, most of them being Jews."—British Consul at Ekaterinburg, Feb., 1919.

change, and they are now content to advocate the emigration of the Britons who have fought for their country. Their pre-war attitude towards the German danger, and the agitation for a strong navy, is indicated by the following extract from the "Daily Graphic," of July 15th, 1908 :—

"German newspapers are making hugely merry over the attack of 'spionitis' from which a section of our gullible public are just now suffering. 'Spionitis,' we must explain, is bastard German for 'spy mania.' Were the affliction confined to our yellow newspapers and Navy Blue reviews, we should feel disposed to laugh with our Teuton friends; but it has spread extensively, and one cannot enter a drawing-room or join a dinner party, without hearing the most fearful stories of the legions of German spies the Kaiser is naively alleged to have let loose on this once happy land."

"The Jewish Chronicle" and the "Jewish World" are closely associated and have been established many years. The "Jewish World" early in 1919, inserted on its title page the word "Anglo." Previously its title had been "The Jewish World. A Journal for every Jew." When the "Morning Post" published the letter of the famous Ten Jews on April 23rd, 1919, protesting against the Bolshevising tendency of "The Jewish Chronicle," the "Jewish World" suddenly changed its secondary title, and "A Journal for every Jew" became "An ANGLO-Jewish Journal for Every Jew."

But there was no more "Anglo" about it after that than there was before, and it never can become Anglo or English, because the Jews are a distinct race, and always have been, and always will be Alien to the British people.

Mr. Joseph Cohen puts it very clearly in the "Jewish Chronicle" of Nov. 1913, when he says : "Their first duty was to their own race. He said that without hesitation, if he had to choose between his duty as an Englishman, and his duty as a Jew, he would choose the latter."

Another leader in Jewry, Mr. Joseph Dulberg, M.D., J.P., is also quite clear on the point when he states in the "Jewish Chronicle" : "Judaism is not a religion merely like Catholicism, or Protestantism. It is a brotherhood, a Race if you like. That it will remain, so long as there are two Jews left in the world."

The Jewish papers teem with statements of this sort from members of the tribe, and they all prove how true is the old adage : "Once a Jew, always an Alien."

DREYFUS, Camille, Dr.

Dr Dreyfus has so far not figured as a leading financier in Britain, but in future he will be known to fame as the greatest Jew financier the world has ever known. In conjunction with Dr. Henry Dreyfus and Alexander Clavel he is the proud possessor of 79,998 sixpenny Dope shares in the British Cellulose Co. By means of a little gentle manipulation at which the Jew excels, these sixpenny shares suddenly blossomed into £14 10s. 0d. The result is that the tribe of Dreyfus is now enriched to the extent of over £1,000,000. Sombart, the great Jew historian, spoke very truly when he wrote: "Wars are the Jews' harvests," but even Sombart never contemplated a fellow-tribesman making over £1,000,000 out of a holding of 79,998 sixpenny shares, or £2,000. It is fortunate for the Jews that the bulk of the daily press is in their hands and so prevents the public from knowing what is going on in "high finance," but the Englishman is slowly realising that something is radically wrong with his country and will before long take steps to remedy matters. He did it before and he will do it again. No Dope "honours" have yet been allocated; when they are, the doctor can rest assured that the Dreyfus family will hold the premier position on the list.

In addition to the astounding watering of capital, the Directors had a keen eye to "living and entertainment" expenses on which items the Inquiry Committee reported :—

"We think it incumbent upon us to call attention to a minute passed at a meeting of the Company's directors, January 31, 1918, under which a sum of £4,500 per annum, as from January 1, 1918, was voted to each of the managing directors—Drs. Camille Dreyfus and Henri Dreyfus—for 'living and entertainment' expenses, and a sum of £5,000 was voted to the chairman, Colonel Grant Morden, for similar purposes, it being expressly agreed that no detailed account of these expenses need be presented."

The Co. carries on a general land business and cultivates cotton in the Soudan, and has recently received very material concessions from the Government.

Mr. Raymond Radclyffe, writing in the "New Witness" of August 8, 1919, says:—

"'Soudan Plantations' are talked higher on the wonderful scheme by which the Empire guarantees six millions to the Soudan for irrigation, but no one seems to know how Soudan Plantations can benefit, for surely not even our Government proposes to give the Company 25 per cent. for taking no risk and doing no work except management. Such a thing would be a scandal of the first magnitude. Soudan Plantations is a *Wernher Beit enterprise* and the group has great influence in Government circles. The big scheme for irrigating the delta between the Blue and White Niles is needed, but it must not be made the monopoly of the *South African Jew clique*. They control the *gold*. They must not be allowed to also control *cotton*."

"... Many believed ... that a man such as Lord Kitchener should occupy the position of Secretary of State for War ... a Government so constituted would be the worst Government this country could suffer from."—Mr. Herbert Samuel, M.P., Postmaster-General, Gt. Central Hotel, March, 1910.

FRANKLIN, Leonard B., of Messrs. A. Keyser & Co., Foreign Bankers.

Mr. Franklin is somewhat of a Jewish politician as well as a foreign banker, as in a letter to the Jewish voters of North Paddington, published in the "Indicator" of Dec. 6, 1910, he enquired, "Will your views on politics enable you to support my candidature at the next Parliamentary election in North Paddington, irrespective of politics? Many of our co-religionists are doing this, for they feel that one seat, more or less, will make little difference in the final result, and that support to me means strengthening the Jewish interests in the House of Commons."

"The Viennese say that the war will end when the last Jew has become a millionaire."—The Vienna Correspondent of "The Times," May 17, 1916.

It is interesting to note that the Govt. are now considering the necessity of enquiring into the question of profits made during the War.

It is only the extreme pressure of public opinion and threats of 'direct action' which has forced them to take up the matter at all, and it now remains to be seen how the huge numbers of firms and individuals who have made gigantic profits during the War will be dealt with.

He was educated at Freiburg, and returned to Africa at an early age. He remained in South Africa for some years, living principally in the Transvaal until 1891 when he came to England, having secured a situation in London in the mining firm of Neumann & Co., where he remained for several years until he started business for himself in London. After getting into the House of Commons in 1910, he joined the Territorials and during the 1914-1918 War assisted the War Office on Intelligence work.

GOMPERS, Samuel, B. England 1850. Married Miss Julian. President American Federation of Labour. Visited England during the great war. As the Jews control all the finances of the world, so do they endeavour to control labour—"control" of capital and production being their one aim in life. They are thus able to sway public opinion always to advantage to themselves. In England the real wire pullers behind the scenes in industrial unrest are invariably Aliens, but not having "conquered" Britain to quite the same extent as they have other countries, they are not up to the present as prominent as they are in other parts of the world, *vide* Russia, Hungary, etc.

GREENWOOD, Sir Hamar, M.P., Barrister, 4, Crown Office Row, Temple, E.C. Brother-in-law to L. C. M. S. Amery, M.P. Mar. dau. of Walter Spencer.

Educ. at Whitby, Canada. Some time in Canadian Militia; Dept. of Agric., Ontario. M.P. for York. Parliamentary Secretary to the Home Office, and as such wields considerable power over the control of Jew Immigration into England. In reality the Home Sec. and his colleagues have extraordinary wide powers in dealing with the deportation of vicious Aliens, 90% of whom are invariably Jews, but so Alien controlled has our Govt. been for years, that nothing short of a volcanic outburst of public opinion will make them either prevent the entry of thousands of diseased and pauper Jews, or deport those convicted of the most atrocious crimes.

The 1905 Aliens Act was turned into such an utter farce by Mr. Winston Churchill and other Home Secretaries, that the "Jewish World" stated in June 1915, that it "has been practically if tacitly suspended, and for all we know, might as well not be on the Statute Book."

Another Aliens Act is now on the Statute Book, and it will be interesting to note whether our Jew-ridden Govt. will permit it to become the farce the 1905 Act was turned into.

Director of MARIEVALE NIGEL GOLD MINES ... ... —

Sir David is also Colonel of the Kimberley Regt. and usually resides in Kimberley, where, as the representative of de Beers Co., he has considerable influence. This diamond octopus company owns or controls practically the whole of Kimberley and its inhabitants, and it may be truthfully said that almost its entire population live "by the grace of De Beers." The town itself is certainly the most backward in the Union and forms a striking example of the drawbacks of Jew controlled monopolies. Sir David has many other interests most of which are centred round de Beers, whose tentacles grip with an iron hand so many industries in South Africa.

ISAACS, Godfrey Charles, Son of Joseph M. Isaacs. Educ. London, Hanover, and Brussels.

At an early age entered his father's firm of Fruit and Ship Brokers; this business afforded occasion for considerable travel to almost all European countries, the opportunity of acquiring foreign languages, and becoming acquainted with the characteristics of peoples of the Continent. In several years of a busy life, he acquired considerable business and financial experience. Upon retiring from his father's firm, he continued to take even more interest in business at home and abroad until 1910, when, at the invitation of Mr. Marconi, he consented to take the Managing Directorship of Marconi's Wireless Telegraph Co., Ltd.

ISAACS, Harry M., City trader of London, brother to Rufus Isaacs, Chief Justice of England, now known as Lord Reading. He is also brother to Godfrey Isaacs of Marconi renown, who, together with his relatives, has been figuring in the law courts so much recently.

Mr. Harry Isaacs is of a more retiring disposition than his two brothers, and though he has not specialised in Marconis as they have done, he has managed in conjunction with other members of his tribe, such as Mr. Berthold Kitzinger of Dünkelsbühler & Co., C. Mendel, Moss S. Myers, and Dr. Camille Dreyfus, to get in on the ground floor in the British Cellulose & Chemical Manufacturing Co., Ltd., in which he holds the modest sum of 2,000 sixpences. With a wave of the International Jew financial wand, in the manipulation of which the Isaacs family are extremely proficient, and a considerable amount of wire-pulling, which is another strong point of theirs, Mr. Isaac's 2,000 sixpenny shares suddenly became worth £29,000. We read of wonderful miracles in the Bible, but they seem insignificant when compared with an Isaacs financial deal. Unlike Lot's wife, the Isaacs family since descending upon England's shores have never looked back, which is not surprising when the least known member of the "big

three" can turn 2,000 humble sixpences into £29,000. Some people call this "la haute finance," other people know it by a less pleasant-sounding name. Mr. Harry Isaacs, unlike his brother, has so far evaded "honours," but his time is coming, and a man who can make 6d. into £14 10s. 0d. should do well as a Chancellor of the Exchequer. It will be remembered that it was from Mr. Harry Isaacs that his brother, Rufus, obtained the 10,000 Marconi shares with which Messrs. Lloyd George and Murray were enticed into the Marconi deal, but the Profits on Marconi were trifling when compared with "Dope" deals.

ISAACS, Rufus Daniel, Kt., Bach., 1910; P.C., G.C.B., K.C.V.O. (1911); Lord Chief Justice of England 1913; Formerly M.P. for Reading; Solicitor-General, Attorney-General, and member of Mr. Asquith's Cabinet (1912); cr. Baron Reading of Erleigh 1914, Visc. 1916; Earl of Reading and Visc. Erleigh 1917. Appd. (1918) High Commissioner and Ambass. Extraordinary of British Mission to U.S.A.; in 1917 was British Rep. to Supreme War Council in Paris. Created Q.C. 1898. Born London, Oct. 10, 1860. Second son of the late Joseph Michael Isaacs; brother of Godfrey and Harry Isaacs. M. 3rd. dau. of Albert Cohen. Res.: Foxhill, Erleigh, Berks., and 32 Curzon St., W. One s., Gerald Rufus, married d. of Sir Alfred Moritz Mond.

Rufus Isaacs commenced his business life on the Stock Exchange but left it after a brief and somewhat cyclonic career. He then took to the law when he prospered exceedingly. But he never lost his first love for the share market, and his name will long be remembered in connection with his operations in Marconis in which he was so closely associated with his brothers Godfrey and Harry. This is a history of the transaction in brief :—

"Jews who pretend that they can at once be patriotic Englishmen & good Jews are simply living lies."—Mr. B. Feltz in "Jewish Chronicle," Dec., 1911.

On March 7th, 1912, Mr. Herbert Samuel, Postmaster-General, accepted a tender from the Marconi Company, the managing director of which was Godfrey Isaacs, whose brother Rufus was then Attorney-General. The well-known gamble in Marconi shares followed. Godfrey Isaacs went to America and returned at the top of the boom with 100,000 American Marconi shares in his pockets, while in those of his jobber, Mr. Heybourne, were more than twice that number to be placed on the London Market. Before doing this he summoned Rufus and Harry to a friendly meeting and offered them the same shares at £1 1-16 at which figure Harry took 56,000, of which Rufus subsequently took 10,000 at £2. Later, both Mr. Lloyd George and the Master of Elibank (Lord Murray) shared in the transaction. In April, 1912, the English Market opened at £3¼, a figure never touched after that day. The two Isaacs sold a great part of their shares; Messrs. George and Elibank nearly the whole number they possessed. Elibank invested part of the secret party funds in the same enterprise, and later he and Mr. George had another private flutter in May. In July, 1912, the contract had to come before the House of Commons for ratification. The chief legal adviser of the Govt. (Rufus Isaacs), the Chancellor of the Exchequer (Lloyd George), and the controller of the secret funds (Elibank) were all three financially interested in American Marconis on advantageous terms. Mr. Herbert Samuel was Postmaster-General and efforts were made to push the matter through on the last night of the session and would have succeeded but for Major Archer Shee. On Oct. 11 Parliament reassembled and a fierce debate on the contract took place. Messrs. Isaacs and Samuel declared, on behalf of their colleagues and themselves, that they had never held any shares in "this company," whilst Mr. Lloyd George talked vaguely of "foul lips." A committee was appointed to investigate the business. After the committee had been appointed, Rufus Isaacs himself approached two members of that committee and privately informed them of his dealings in Marconis and those of other Ministers "because," as Rufus admitted on oath, "they were going to examine the journalists."

Mr. Rudyard Kipling, when he wrote his striking poem, "Gehazi," which appears in his last issued volume of poems, entitled "The Years Between," must have had a similar case in mind.

After the exposure which resulted from the commission, the nation fully expected that Mr. Asquith would not appoint Sir Rufus Isaacs to the Lord Chief Justiceship, which was expected to become vacant. But the nation knew as little then as it does now of the real power behind politicians, and Sir Rufus not only became Lord Chief Justice, but Baron Reading of Erleigh into the bargain.

"The Aliens Bill (1905) was a sham, with lunacy superimposed upon it. It contained absurdities which would make a deaf and blind mute roar with laughter."—Mr. Winston Churchill, Manchester, 1905.

The outbreak of war gave further scope to Lord Reading's financial leanings. His early experience on the Stock Exchange and his close association with his brothers, Harry and Godfrey, in Marconi deals doubtless marked him, in Mr. Asquith's eye as the proper man to head the mission about to be sent to the United States to arrange the financial relations of that country with our own. By the choice of Rufus Isaacs for the post, possibly our country escaped a "disaster" similar to that from which we were saved, as our alien-loving politicians informed us, by the naturalisation of Baron Schroder and his partner, Julius Rittershausen within a few days of the declaration of war, thus easing the financial control which they had over many of our leading politicians.

It is astounding to think that no Englishman was selected for such an important task. The appointment of Lord Reading is one more piece of evidence to show how far the control of our Government has passed into the hands of the Jews.

If report speaks truly, Lord Reading saw something of a brother Privy Councillor, Sir Ernest Cassel when he visited the United States. On his return, so successful had he been in the fulfilment of the wishes of those who selected him that he was raised a step in the peerage. Even then he was not allowed to return to his labours on the judicial bench but with still another step in the peerage, as a full-blown belted earl, he became Ambassador Plenipotentiary to Washington, where he found himself in the congenial society of many of his fellow tribesmen. On his final return to England, his diplomatic and financial abilities were still in request and with his relative, Sir Alfred Moritz Mond, he was in Paris on more than one occasion prior to the signing of the Peace Treaty.

It will be recollected that he presided over one of the most important test cases of the last two centuries, the case being that of Sir Geo. Makgill v. Speyer and Cassel, in which the former denied the right of two German Jews of Alien birth, even though they had gone through the formality of naturalisation, being members of our Privy Council, which according to custom for centuries and as specially laid down in the Act of Settlement, safeguarded the natives of these islands from Alien control, its membership being carefully preserved only for those of pure British lineage. But, like his near relation, Sir A. Moritz Mond, who once stated in the House of Commons that "foreigners view our ancient and glorious constitutions with derision," he also regards them with apparent disdain.

In the course of his judgment in the above case he stated, when referring to that shameless action of Mr. Asquith's in passing the Act of 1914, a few days after the declaration of war, that it was "*intended* to *extend* and *not* to *curtail* the rights of naturalised subjects and Aliens." Politicians have an increasingly unsavoury reputation to live down to, but this touches the depths.

"There was a time in England when foreigners were on a distinct and inferior footing to natives. They were well treated, but the trade and industry of the country was maintained in British hands."—"Morning Post," Dec. 4, 1917.

Solomon Barnato Joel is a brother of the late Wolff Joel who was shot by von Weltheim in Johannesburg some years ago. The foundation of this international financier's gigantic fortune was laid in Kimberley by his uncle, Barney Barnato. Prior to the discovery of gold in the Transvaal, the Joel family specialised in the diamond industry. Gold is their strong point now. He is domiciled mostly in England. If wealth is still to be the chief qualification for hereditary titles, Mr. Solomon Joel has surely earned a dukedom.

If King Solomon's mines were as numerous as his namesake's, his wealth must have even exceeded his wisdom, and the original Solomon "in all his glory" must have been a pauper to the Solomon depicted here. It is not for a moment suggested that these are the only investments this financier controls, but it gives a fair idea of how only one Jew family can accumulate what is to-day called "wealth."

He is a nephew of the late Barnet Isaacs Barnato—commonly called "Barney" Barnato—a brother of Isaac Joel, usually known as Jack Barnato Joel, and a cousin of Wolff Barnato, with whom he is now engaged in a lawsuit—money, as is only natural, being the bone of contention.

Mr. Kitzinger has many other and varied interests, but has recently come into the limelight through having acquired 4,300 sixpenny shares in the British Cellulose Company's lucky-bag. In conjunction with his Askenazi friends, Messrs. C. Mendel, Moss S. Myers, the Dreyfus Bros., and Harry M. Isaacs, brother to Rufus Isaacs, now Earl Reading and Lord Chief Justice of England, he waved the International Jew wand and his 6d. shares suddenly turned, not into a pillar of salt, but into £14 10s. 0d. Presuming that he actually gave £107 10s. 0d. for his original shares, these are now "worth" £62,150. In years to come if any of his Asiatic friends should ask "what did Mr. Berthold Kitzinger, of Dunkelsbuhler & Co. do in the great war?" he can reply, "I pulled a few strings and out of Dope alone turned £107 10s. 0d. into £62,150," which must be admitted is no mean feat. Not even a Rothschild or a Solly Joel has risen to such a pinnacle of fame in "high finance" as this, and the knowledge of these Dope deals is hardly likely to bring tears of gratitude to the eyes of our gallant airmen who for four long years were risking their lives to protect Mr. Kitzinger and his fellow-tribesmen.

LEVISON, SIR LEON Kt. Bach. (1919). Recently honoured for services rendered to Russian Jews, according to the *Jewish World*, of May 14th, 1919

Sir Leon is a converted, or, as that journal prefers to call it, a "perverted" Jew. His chief activities have been in connection with a committee of Edinburgh philanthropists, and, according to the *Jewish World* writing on *Truth's* investigations, "The expenses of these funds are about thirty or forty per cent. of the amount collected." But what the *Jewish World* chiefly objects to in the Fund, is that it is "missionary tainted," and that the people who organised it are "active perverters."

It cites from a letter of Mr. Levison's in their possession, that he "assured a Christian lady that the object of the Fund was the easier to get at the hearts and the homes of the Jews." But worse than this, Levison had succeeded in getting the names of three orthodox Jews as patrons of his Fund, who, however, retired as soon as the missionary element was pointed out to them. Of the three, two were signatories to the *Morning Post* letter protesting against the *Jewish Chronicle's* sanction of Bolshevism, and one is actually a Banker, "and a Jew Banker to boot!"

"What has Jewry to hope for," exclaims the *Jewish World*, "when it finds in matters of sheer finance the 'leaders' thus led astray." This was in May, 1919.

"There is a hardening of opinion in the direction of securing, once for all, something solid and tangible for the Jews out of the present melee."—Jadacus in the "Jewish Chronicle," Jan. 22, 1915.

Imagine the feelings of the *Jewish World* on finding its converted (perverted) Jew, Levison, converted into a Knight. On Aug. 20th, 1919, it relieved its feelings thus: "A dire insult has been perpetrated upon the Jews of this country, as well as a severe blow to the Order of Knighthood of Great Britain." "Levison is not the sort of man, his career is not the sort of career that should be encouraged, . . . that sort of thing can only tend to cheapen the whole system of these honours. . . . We have no desire to have it said that a Jew has been the cause of depressing the status of Knighthood." Which shows how hard it is to please some Jews. If the new Knight had been granted his title on account of wealth obtained through the usual International Jew methods, he would doubtless have been hailed by the Jewish Press as a really great man; now all he gets is abuse.

The power wielded by the "House" of Lewis & Marks in South Africa is nothing short of stupendous. Their tentacles literally spread everywhere, and in addition to having vast and controlling interests in a great many gold mines, and practically all the diamond mines, their financial dealings extend to banking, tin, coal, iron, brick fields, beer and meat.

They own or control vast tracts of land, and for variety of "control" may be considered the most powerful Jew combine in South Africa.

Prior to the Boer War, they were on very friendly terms with the Transvaal Government, from whom they obtained many valuable concessions.

Mr. Samuel Marks is a Senator, and looks after the interests of his "House" in South Africa, while Mr. Lewis supervises their interests in Europe.

As individuals they are probably two of the richest Jews in the world, and as Alien birth and opulence have for the last thirty years been the chief factor in obtaining "honours," it is surprising that neither of these two Israelites have not been forced into the House of Peers, and on to the Privy Council.

It is doubtful whether either of these Semites would accept such distinction, as of late years the lavish distribution of these "honours" has not made them so sought after as formerly. Messrs. Lewis & Marks are satisfied with "control," and this they have obtained in a marked degree.

"A few day ago Capt. Hill sent out papers to several eligible Russian Jews, and in every case they have been returned with a refusal to join the colours."—"Yorkshire Evening Post," June 19, 1916.

LEWIS, Sir George James Graham, 2nd Bart. Cr. 1902. S. of the 1st Bart., Sir George Henry Graham Lewis, C.V.O., whose father was Löwe or Levy of Stuttgart. The first Sir George mar. as his first wife a dau. of Philip Kann, of Frankfort-on-Main, secondly Elizabeth, dau. of F. Eberstadt of Mannheim, mother of the present Baronet. The latter mar. the dau. of Emil Hirsch, of Rheinstrasse, Mannheim, so that the Frankfort Askenazi connections of the family are most potent.

The first baronet founded the firm of Jewish lawyers, "Lewis and Lewis," which for many years was a veritable City of Refuge for highly placed litigants of this country. In addition, the firm are Solicitors to various Banks and the bulk of the important daily newspapers in London.

LINCOLN, Trebitsch Ignatius Timotheus.

Hungarian Jew, and former Radical M.P. for Darlington. Born 1879. Naturalised 1910. Son of Nathan Trebitsch. Married Miss Kazlor of Hamburg. Educated at Pressburg and Breckhem.

Studied at a Roman Catholic College at Budapest, later entered a Presbyterian College in Montreal, and then was permitted to enter Holy Orders, and acted as a Church of England curate in a Kentish Parish. Private Secretary to Mr. Seebohm Rowntree. Was given a Govt. post in Censor's office on outbreak of war, which he no doubt found very useful for his purpose of selling England to Germany.

Represented Darlington in House of Commons as a Liberal from 1910, and, so anxious was Mr. Lloyd George to see this International Jew-cum-Roman-Catholic-cum-Presbyterian-cum-Church of England parson, who had only just been naturalised, represent British electors, that he wrote him the following affectionate letter: (Mr. Lloyd George was no doubt unaware of his plotting at that time.)

"Dear Lincoln,

You have my heartiest good wishes in your contest at Darlington. A win at Darlington would be a great victory for Free Trade and Liberalism, and I feel confident that the vigour with which you have conducted your campaign and the excellence of our Cause will combine to defeat the forces of reaction and Protectionism.

(Sgd.) LLOYD GEORGE.

"The plan I mapped out . . . was to find out important naval and military secrets, and betray them to Germany, and having achieved that to quit England for ever."—Trebitsch Lincoln, ex-M.P., Darlington.

It may be remembered that it was one of "Dear Lincoln's" tribesmen who put the dear one's correspondent on to a "good thing."

This letter successfully got this Jew into Parliament where he did good work with the Free Trade brigade which has done so much to destroy British industries.

It is interesting to note that this Asiatic's knowledge of the English language was so poor, that on delivering his first and only speech in the House of Commons, it was received with roars of laughter from his own party of Free Traders and Empire destroyers. No details are on record with regard to the sermons he preached at his rural parish in Kent. He also robbed his cocoa patron, Mr. Rowntree, and when not selling England to the Huns, or preaching to his flock, tried his hand at forging guarantees. For being found out, he received three years' penal servitude. England is indeed in a sorry plight when her politicians have sunk so low that they finance and place in Parliament an Alien of such a debased type. The parties who should have been punished were the corrupt politicians who put him into Parliament, as Lincoln was true to his race and was merely out to sell England or any other country at the highest price offering. It is not recorded whether he was offered a peerage. His religious training does not seem to have prevented him from leaving the path of virtue as at a later date, he made the following statement :—

"The plan I mapped out to achieve this will seem startling. It was nothing less than a decision to find out important naval and military secrets, and to betray them to Germany, and having achieved that, to quit England forever. . . . Now, my aim really was nothing less than to lure part of the British Fleet into a certain quarter of the North Sea on a certain day, and have the German Fleet within easy steaming distance."

Like many of his fellow-tribesmen, he delved in finance, oil and tin being his hobby.

In 1914 he was a Director of

It will be remembered that Sir Joseph's firm had many important food contracts with the military authorities early in the war, and that his catering did not meet with the approval of or suit the digestions of the soldiers who had to consume the meat supplied.

So grave was the scandal in connection with the catering, that the authorities ultimately took action, with the result that a heavy fine was inflicted on account of the bad quality of the meat supplied to Kitchener's army at the White City during the most critical period of the war.

Director of GARING (MALACCA) RUBBER ESTATE, LTD. ... £80,000

This Company which was registered in 1911 does not appear to have been as lucrative as Mr. Mendel's latest venture. He is the owner of 200 sixpenny shares in the Dope lucky-bag, otherwise known to the British Cellulose Co., and in conjunction with his fellow tribesmen has done very well out of this company. By some mysterious means, Mr. Mendel's outlay of £5 is now worth £2,900, which even in the realms of "high finance" must be considered a very fair return. His fellow tribesmen in the Dope deal were Messrs. Dreyfus Bros. with 79,998 shares, Berthold Kitzinger with 4,300 shares, Mr. Harry Isaacs, brother to Rufus Isaacs, Lord Chief Justice of England, with 2,000 shares, Moss Samuel Myers with 630 shares, and though Mr. Mendel is at the bottom of the list as far as number of shares go, he is no doubt grateful for having such a windfall, as even in "high finance" it is not often possible to turn £5 into £2,900.

This Company and the Diamond Syndicate practically control the entire diamond output of the world. Though South Africa produces the bulk of the world's output, no stones are cut in that country as it does not suit this international Jew combine to do so. The South African daily press is largely dominated by De Beers, with the result that the politics of the country are largely controlled by them. The town of Kimberley is entirely under their domination, and one of their Directors (Sir D. Harris) is in the House of Assembly. The Company holds preemptive rights over all diamond mines found in the lands of the South-West Africa Co. and in Rhodesia, thus securing it a complete monopoly.

MOND, Rt. Hon. Sir Alfred Moritz, Bart. Cr. 1910. M.P. and Privy Councillor. Mar. Miss Goetze.

Is a member of the present Govt., a prominent Welsh nationalist and one of the proprietors of the "Westminster Gazette." S. of Dr. Ludwig Mond, who migrated to England in 1862, and established the two international monopolies now known as the Mond Nickel Co., and Brunner Mond & Co. Sir Alfred was born in Lancashire and was educated at Cheltenham and Cambridge. He has also studied law. His father left over £1,400,000, which he accumulated between 1872 and 1909, and though he left large sums to institutions in Munich, Heidelburg, and Cassel, he was able to leave all his progeny and relations both in England, Germany and America remarkably well-endowed with the necessities of life. Sir Alfred is a very keen politician, and for many years has been closely associated with not only our leading politicians, but with more than one Prime Minister. Being a Jew, he realises how important it is to "control" public opinion through the press, and consequently has delved rather deeply into

the newspaper world. In addition to the "Westminster Gazette," he controls the "Cambria Daily Leader" of Swansea, and for a number of years controlled the "English Review," "Wales," and other publications. During the war he financed the "National News" to the amount of £5,000. This paper in 1917 was being edited by a naturalised (1896) Hungarian Jew named Alexis Maria Joseph George William de Beck. Mr. de Beck did not rely entirely on Sir Alfred's support, as he also received financial assistance from Mr. Godfrey Isaacs, brother to Rufus Isaacs, now Earl Reading, and Chief Justice of England, who supplied him with £1,000. The "National News" as conducted by Mr. Beck was not a financial success, its policy was open to criticism, with the result that it changed ownership. Some debts were, however, due to certain "innocent" parties, and to meet them Sir Alfred subscribed a further sum of £737. He is an ardent Free Trader and for many years has been Hon. Treas. of the Free Trade Union.

He is closely associated with the Isaacs family, the only son of Rufus Isaacs, now Earl Reading and Chief Justice of England, having married his daughter. Is Vice-President of the Navy League. He owns many acres in England and at present holds the important position of Commissioner of Works.

The following extracts from the "Cambria Daily Leader" of Swansea, published at the time Sir Alfred was contesting the seat in 1918, will prove how highly esteemed he is in political circles:

"THE SIGN OF LOYALTY TO LLOYD GEORGE." X

("*Cambria Daily Leader,*" Dec. 13, 1918.)

"IF BONAR LAW
WERE VOTING HERE
TO-MORROW—HE'D
VOTE FOR MOND.

("*Cambria Daily Leader,*" Dec. 13, 1918.)

"He (Sir Alfred Mond) was a great business man, and a member of one of the greatest Governments the country had ever had."

"The name of Mond has never been tarnished yet; there has never been a speck of dust on the name."

(*Lady Mond,* "*Cambria Daily Leader,*" Dec. 13, 1918.)

"Oh, Sir Alfred, Oh, Sir Alfred,
You are kind in heart and hand.
You're a credit to the country
And to all your native land.
May your seat be ever certain,
Your supporters ever true,
God bless you, Sir Alfred,
Lloyd George awaits for you."

(*The* "*Cambria Daily Leader,*" Dec. 13, 1918.)

"It ought to be laid down that no hostile-born alien should ever sit in either Houses of Parliament."—Viscount St. Davids, House of Lords, July 1918.

That there is no danger of the Rt. Hon. Baronet's political opinions having any unfavourable effect on the interests of his companies is made evident by the interesting announcement he made on a certain occasion that "I would rather my political consistency suffer than the 8,000 shareholders to whom I am responsible should suffer."

MOND, Ludwig, F.R.S., Vice-Pres. Chemical Society; Pres. Chemical Section, British Association, 1896. B. Cassel, Germany, 1839. S. of Moritz B. Mond. Mar. his cousin, Freda Loewenthal. Educ. Cassel, Marburg and Heidelburg.

Migrated to England 1862, and, in conjunction with J. T. Brunner, established in 1872 chemical works at Northwich, Cheshire, for the manufacture of ammonia soda by the Solvay process. In addition, his works manufactured chlorine, and with Messrs. Langer and Quincke, produced a special type of nickel. He founded the Mond Nickel Co., which has a capital of £850,000, and Brunner Mond, Ltd., with a capital of £5,000,000, and as "control" is the Jews main object in life, it may certainly be said that in the case of these two companies he was very successful, as in their respective spheres they form two of the most powerful International Jew combines in the world. He died worth over £1,400,000, leaving two sons, Sir Alfred Moritz Mond, P.C., M.P., and Robt. Mond, in addition to a host of relations and family connections in the shape of Schweich, Mathias, Brandholt, Herz, Goetze, von Ocker, &c., to carry on the International monopolies he had so firmly planted on our once free and independent people.

This is a "control" Co., and is therefore a close Jewish preserve. It has paid over 200% for many years.

The power exercised by this group of financiers on the Rand and in South Africa generally is enormous, and they directly or indirectly control the bulk of the industries in that beautiful country, that Colony's only drawback being the strangle-hold the various groups of international financiers have over it.

The firm of Mosenthal Bros. do an enormous business as wholesale merchants in the Cape Colony, Transvaal, and Rhodesia; they have branches in the chief towns, and supply the Jew storekeepers, who own the bulk of the country stores, with goods.

The Company is now called BRITISH CELLULOSE & CHEMICAL MANUFACTURING (PARENT) Co., LTD. ... ... £2,320,000.

The progeny of a "Parent" capable of turning a humble sixpence into £14 10s. are anxiously awaited.

Mr. Moss Samuel Myers has suddenly sprung into fame through being the fortunate owner of 630 sixpenny shares in the Dope lucky bag, otherwise known as the British Cellulose Co. As a stockbroker, Mr. Moss Myers must have a first-hand knowledge of ordinary finance, but in future he will no doubt specialise in "high finance," and will leave the ordinary variety severely alone, as any man who can turn a humble sixpence into £14 10s. 0d. is almost a wizard.

No dope peerages have yet been allotted, and if Mr. Myers is overlooked, he must console himself with having turned an outlay of £15 15s. 0d. into £9,135, which was more than any private in His Majesty's Army was able to do in his four-and-a-half years' of anguish during the war.

An enquiry was recently held in connection with the transactions of this Cellulose Co., and the report has been issued. For some reason, the Committee had no power to call witnesses, to demand documents, or put witnesses who volunteered under oath, or to protect

them from the consequences of telling the truth, or to deal with them if they declined to tell all they knew. The Christians who did least and made most out of this unsavoury piece of "high finance" were Messrs. Grant Morden, Trevor Dawson and Robson.

The whole transaction was a particularly lurid one.

"Bolshevism is organised and worked by Jews."—Netherlands Minister at Petrograd, Sept., 1918.

PHILLIPS, Sir Lionel, 1st Bart., Cr. 1912. D.L., J.P. Hants. Ex-M.L.A. Yeoville, Transvaal, 1910. Partner in Wernher, Beit & Co., London; and L. Breitmeyer & Co., Diamond Merchants. Born London, 1855. S. of P. S. Phillips (sponge dealer) and Jane Phillips, formerly Lazarus. Mar. Dorothea, dau. of A. F. Ortlepp. (Lady Phillips is the authoress of "A Friendly Germany; Why Not?")

Sir Lionel was one of the four sentenced to death by Judge Gregorewski for being concerned in the Jameson Raid, but escaped death by paying a fine.

He is Chairman of CENTRAL MINING INVESTMENT CORPORATION, which controls a vast number of the mines of the Rand by means of interlocking directorates. It is also largely interested in Diamonds, through De Beers, and in Oil. C. H. Norman, in "Eye Witness" of January 4, 1912, gives the following account of the constitution of the Wernher Beit Pool as it then was: "This Syndicate had a capital of £2,000,000, and the shares were £1,000 each. The following is a list of the shareholders:

It is difficult to understand, except for legal reasons why these lists of names should be headed "London, Paris and Berlin." Their proper heading should be "Frankfort," or "Jerusalem."

Mr. Norman quotes from the "Morning Leader" this comment on the Company: "And it is for this body of foreigners, who, through the Rand Share Market, control the Government of the Transvaal, that Britain is to consent to the introduction of slavery into her dominions. They are the virtual rulers of the new colony for which 300 millions of English money was squandered, and South Africa deluged with the blood of the bravest of the homeland and of her oversea colonies."

It is not alone the Government of the Transvaal that this alien company controls: it controls the Home Government as well. For did not the Liberal Government bestow baronetcies on Sir S. Neumann, Sir George Albu and Sir Lionel Phillips, all not London-born? And this in spite of the fact that the Cape Blue Book reveals Phillips and Beit at work planning armed rebellion sixteen months before the Jameson Raid; that Phillips spent £25,000 in "improving" President Kruger's Parliament to get measures passed in Jew interests, and, when on his own showing, Kruger was compelled to enact measures to prevent Jew bribery, Phillips planned a secret service fund to defeat the laws. On June 10, 1894, he wrote to Beit: "As for the Franchise I do not think that many people care a fig about it." The Uitlander agitation was purely fictitious, got up by the Jews in order to make trouble, and arouse English feeling against Kruger and the Boers.

Finally, during this war, the present Government gave Phillips a highly influential post in the Ministry of Munitions. He, however, did not forget his old love, but stuck to the chasing of metals, and though of a baser variety than gold, they were not too base for his close attention.

"The omens point to a probability of a considerable Jewish influx into this country after the war."—"Jewish Chronicle," June 18th, 1915.

He has resided in England a considerable period of the war, and his group of financiers is now handling base metals on a large scale, the medium being the British Metal Corporation, which is not unconnected with the Merton octopus. During the War Loan Campaign he took a prominent part in the Trafalgar Square demonstrations, where he invested, amidst much drum-beating, £25,000 in the War Loan.

It was at this demonstration that an ex-private in the South African Brigade asked him, while he was discoursing from the platform, whether it was not correct that (1) his Companies had invested over £566,000 in German bonds and securities, prior to the war; (2) whether his wife did not write a book called "A Friendly Germany; Why Not?"; and (3) how many of his co-Directors were Germans before the sinking of the Lusitania.

The same questions were put to the Home Secretary in the House of Commons by Major Rowland Hunt, M.P., in Oct., 1918, and received the usual evasive replies, which are invariably forthcoming when pointed and definite information is asked for on the subject of International Jew Financiers.

Sir Lionel's co-Director and great friend—R. W. Schumacher—changed his name during the war to Ffennell, and as peerages for Jews are now so lavishly distributed, it may not be long before this Baronet is made into a Peer of the Realm.

The Central Mining Company made a profit of £397,000 in 1918, as compared with £349,000 in 1917, showing that the war has been kind to this Jew-controlled concern. Professor Sombart, the Jew historian, knew his tribesmen when he wrote "Wars are the Jews' harvest." The Wernher Beit group have reaped many harvests out of many wars.

The Directors are entitled to 25 per cent. of the net profits after paying a dividend of 5 per cent. At the last meeting of this Co., Sir Lionel stated that "with regard to diamonds, the interest in De Beers Shares had been substantially increased since the close of the year (1918). The success of the diamond industry had been due mainly to the *control* of the output."

"It (Bolshevism) originated in German propaganda, and was and is being carried out by international Jews."—Rev. E. S. Lombard, British Chaplain at Petrograd.

The price of diamonds is purely fictitious, and the prices are kept up owing to this Jew-devised "control."

THE ROTHSCHILDS.

No apology is needed for dealing at length with the history of the all-powerful House of Rothschild, as it can with confidence be said that it is by this Frankfort-Jew family that the example of world-control of Finance by the Tribe of Israel has been set.

The House of Rothschild ("Red Shield") came into note in the money world in a mean little building in Frankfort-on-the-Main which still exists and which is still decorated with the Red Shield, the trade mark of International financiers and money-lenders. This building is now sacredly guarded as the Mecca or Holy of Holies of the Tribe. From its emblem, the Red Shield, the family takes its title, and it has planted it, along with many other parasitic elements, among the hereditary family trees of the English aristocracy. Sombart, in his book, "The Jews and Modern Capitalism," draws a moving picture of the founder of this aristocratic line, which has since disseminated its alien blood amongst the real blue blood of Europe.

"Let us imagine," Sombert writes, p. 217, "old Amschel Rothschild on a Friday evening, after having '*earned*' a million on the Stock Exchange, turning to his Bible for edification. What will he find there touching his '*earnings*' and their effect on the refinement of his soul, an effect which the pious old Jew most certainly desired on the eve of the Sabbath? Will the million burn his conscience? Or will he be able to say, and rightly say 'God's blessing rested upon me this week. I thank thee, Lord, for having graciously granted the light of thy countenance to thy servant. In

"Why should aliens be allowed to sit on the Magisterial bench, the judicial bench or the Treasury Bench?"—Mr. Bottomley, H. of C., April 15, 1919.

order to find favour in thy sight, I shall give much to charity and keep thy commandments even more strictly than before.' "

From Frankfort, scions of this house of profitable piety went forth conquering and to conquer, to countries as diverse as Austria, Russia, France, and England, where they speedily put in force the Frankfort principles, posing as "Austrians," "Frenchmen," "Russians," or "Englishmen," as business might require. By the blessing of Heaven, the one who came to England to spread a knowledge of his gospel of usury was able, by some means or other, to get news of Wellington's victory at Waterloo before the native English, and to spread abroad the rumour that Wellington had been defeated. If the Rothschild of that day had failed to take full advantage of this opportunity to increase the wealth and glory of himself and his tribe, he would have been false to all his principles. But he did not fail. It was thousands of Englishmen who failed, and the conquest of the Red Shield was established in England more firmly than the conquest of Wellington at Waterloo. How the family followed up their conquest is told in the "Jewish Year Book."

In this volume we read that nearly 600 years ago, in 1358, the Jews were expelled from England by Edward I., and were not re-admitted until Cromwell let them in again by a back door. But the Jews did not care by which door they entered so long as they were able to reach the front rooms of our national house. But English blood soon rebelled against their admission. Two years after Cromwell's death in 1660, so devastating was their influence on the simple English, who had become particularly simple and honest owing to three centuries of freedom from Jew pollution, that they petitioned the King and Parliament for their expulsion and the confiscation of the property which they had amassed by their usual dishonest methods. Unhappily, Charles II. was extravagant and required money, and so the petition failed. Instead of expelling the Jews from England, he capped Cromwell's crime against England and gave the Jews a Charter! But even then, Jews were not acknowledged as British subjects. This did not happen until 1723, barely two centuries ago, in the reign of George I.

But even under our non-English speaking King, Jews were not allowed to be "naturalised." In 1753 in the reign of the Second George, a Naturalisation Bill for Jews was passed; but so great was the opposition in the country that it was repealed the following year. Almost a century later, in 1847 the name of Rothschild first appears in the "honours" list: Antony de Rothschild is created a baronet. In 1849 Baron Lionel de Rothschild (the title "Baron" being Austrian) was returned to Parliament as member for the City of London. This proves how completely the Jew had conquered the City; but he was not allowed to sit for all that. In 1852 he was returned a second time, and in 1857 a third time; but there was still sufficient English sentiment in Parliament to keep him from taking his seat.

"Again it was a scandal to have German-born people serving on juries and as Magistrates."—Lord Beresford, House of Lords, July, 1918.

The year 1858 marks the conquest of the House of Commons by the Jew; nine years after his first return Baron Lionel of the Red Shield was admitted to the House of Commons.

Six years later there was another Jewish advance, Mr. (afterwards Sir) John Simon was created a Sergeant-at-Law. In 1885 the House of Peers fell: Sir N. M. Rothschild was created the first Jewish Peer. Queen Victoria had sufficient Englishness in her to insist that on becoming a Peer the Jew should keep his own name, but that precaution has long gone by the board, and now Levys can be Burnhams, Samuels can be Montagus, and Swaythlings Sterns, Michelhams and Wandsworths, and Isaacses Readings and Erleighs.

In 1904 there was an interesting case of Jew corruption in Limerick.

In the following year a Bill for the restriction of Alien Immigration was passed. This shows a further reaction of the nation against the Jewish Deluge, but the powers of International Finance behind and in the Cabinet have been able to secure the appointment of a succession of Home Secretaries who have very effectually nullified the intentions of the Parliament which passed the Aliens' Act.

Other interesting dates in the Jewish march of conquest are:—1910, Sir Rufus Isaacs created Attorney General; 1911, Anti-Jewish Riot in Wales; 1912, the Marconi scandal (in which Rufus Isaacs was a principal); 1913, Sir Rufus Isaacs appointed Lord Chief Justice of England; 1915, death of the first Lord Rothschild and succession of the second Baron, his son, Lionel Walter; 1917, Viscount Reading created an Earl; 1918, Earl Reading appointed Ambassador to the United States which brought him in close contact with his co-tribesmen, Chief Justice Brandeis, of U.S.A. Conquest of Palestine by the British Army; the Judeans march through London. It will thus be seen how intimately connected with the tribe of Rothschild is the "conquest" of England.

The conquest of France by the same tribe and family would appear to be no less complete than that of England. There sits in Paris a Central Committee and a Central Consistory of the Universal Israelite Alliance—a species of Sanhedrin, or Parliament of World Jewry. On the Central Consistory are three Rothschilds, all Barons. There is Baron Edmund de Rothschild, Baron Robert de Rothschild, and the President of the Consistory is Baron Edouard de Rothschild. The late Mr. Alfred de Rothschild was Consul General for Austria when war broke out; he resided at 1, Seamore Place, Park Lane at that time, and for years previously a British policeman could be seen at any hour of the day or night parading on guard before the sacred mansion. And the same thing holds good in Paris. In that City there are no Royal personages to guard, but the National Police are on duty day and night watching over the holy Bank and residence of the branch of the Rothschilds' family who honour our Allies with their despotic financial rule.

"Three years ago you would have said that the Marconi scandals and the appointment of the present Lord Chief Justice were impossible."—Rudyard Kipling, Tunbridge Wells, May 16, 1914.

Resigned early in the war from the Tring Council because the latter body wished to impress on the Government the necessity of supervising Aliens. Lord Rothschild's resignation was received with a perfect salvo of applause from the entire Jewish Press, the *Jewish World* of June, 1916, stating:—"No one can . . . do other than commend Lord Rothschild's action in resigning from the Tring Urban District Council, which had passed a resolution calling upon the Govt. to take 'immediate and drastic steps for the supervision of Aliens, whether naturalised or not.'"

understand the difficulty encountered in providing the men who have fought for England with small plots of their own land to cultivate. Lord Rothschild displayed his gratitude towards the country whose hospitality he enjoyed by employing his money and influence in opposing the movement for restricting the influx of alien paupers, and by defraying the emigration expenses of the people of East London who were deprived of their employment and house accommodation by the alien influx. Lord Rothschild's elder son, the present Peer, aroused the enthusiasm of the Jewish Press early in the war by resigning from the Tring Urban District Council in order to show his indignation at the resolution it had adopted calling upon the Government to take "immediate and drastic steps for the supervision of aliens, whether naturalised or not."

The late Lord Rothschild united in his person the Triple Alliance in the true sense of the word, as Head of the House, Head of the Bank, and Lay Head of the Jewish Community.

This triple headship is no longer existent. The head of the House is the second Lord Rothschild, but the head of the Bank is the Hon. Nathaniel Charles Rothschild, and Major Lionel de Rothschild is lay head of the Jewish Community.

But the headship of Jewry in England is still in the one family, if it isn't in one head.

No attempt is made in this volume to give anything approaching the financial dealings of this Askenazi "House." To do this would require a book to itself, and it must suffice to say that no family has ever lived which has wielded such stupendous power in the financial history of Europe. How long this is to continue remains to be seen, and Christendom is slowly but certainly beginning to realise how pernicious is this money power, particularly when in the hands of an alien race.

ROTHSCHILD, Baron Maurice de, S. of Baron Edmond de Rothschild, of Paris.

Recently distinguished himself by libelling Capt. Jefferson Davies Cohn in a letter to Sir Alfred Stern containing reflections on Capt. Cohn's honesty and character. Baron de Rothschild sent the letter to Stern requesting him to forward it to the Dowager Lady Michelham. The case was heard by the Lord Chief Justice (Rufus Isaacs) and ended by Baron de Rothschild apologising and paying costs. The letter of apology is remarkable as showing the mentality of these people. The Baron addresses the man whose character he has traduced as "My dear Jeff," and he goes on: "I withdraw all the imputations I made in the letter complained of. They were absolutely unfounded. I wrote that letter with the idea of trying to please Stern, so that he might make himself on good terms with Lady Michelham. I now express my deep and sincere regret and apologise. I have written a similar letter to Lady Michelham." It was apropos of Baron Maurice de Rothschild's marriage that Isaac Blümchen boasted (*Le Droit de la Race Supérieure*) as follows: "When our Maurice de Rothschild, son of Baron Edmond, married our Noemie Halphen, what kind of crowd was it that crushed into the synagogue in the Rue de la Victoire? Always the same Rohans, Harcourts, Gauays, Breteuils, Mornys, Sauvignys, Mouchys, Berteux, Fitz-James, La Rochefoucaulds, &c. The majority of these, half-Jews themselves, answered like whole Jews to the Ketouba and the Ascreï Yerci which was entoned by Grand Rabbi Dreyfus, after the seven benedictions by Rabbi Beer."

SAMUEL, Rt. Hon. Herbert Louis, P.C., M.A. Postmaster-General in 1910. M.P. Cleveland, Yorks. Born Liverpool. S. of Edward L. Samuel. Brother of Sir Stuart Samuel. Mar. dau. of Ellis A. Franklin.

Mr. Samuel was Postmaster-General at the time of the Marconi deal, and holding that position was responsible for all negotiations with the Marconi Company. He is one of the tribesmen on whom particular reliance is placed by the Jews in all matters connected with Jewish and international, as opposed to English and national interests. But as "control" is the Jews' main object, thanks to his omnipotent power through finance over our politicians, this Askenazi was appointed head of an Anglo-Belgian mission. It will strike the Englishman as surprising that a so-called British Government should give such an appointment to an individual who is certainly not of our flesh and blood and by no stretch of imagination can be called either "Anglo" or "Belgian." This mania for filling positions and adopting national names is further illustrated in the case of the "Anglo-Saxon Petroleum Co." which was founded by other members of the Samuel tribe, none of whom, of course, has the remotest connection either by blood or nature with anything "Anglo" or "Saxon."

It was Sir Marcus who gave utterance to the interesting remark that: "It is quite true that the Shell Company does make large profits, and it is entitled to do so. It is no use mincing matters. The price of an article is exactly what it will fetch."

Sir Marcus figures in "Debrett" as Samuel of the Mote, Lord of the Manor of Mote, and Alderman of the Ward of Portsoken. These ancient English appellations are not derived from the fact that Sir Marcus is Chairman of the Anglo-Saxon Petroleum Company, because, of course, he has not a drop of either Anglo or Saxon blood in his veins, but because he has become the possessor by purchase of one of the oldest and most historic Manor Houses in England—The Mote, Maidstone, Kent.

"He (Sir Alfred Mond) was out to beat Germany and to make Germany pay."—Election Speech, "Cambria Daily Leader," Dec. 13, 1918.

Sir Marcus's Coat of Arms, which first saw light circum 1903, displays "an escutcheon or, thereon a shell," which is delicately suggestive of the golden mollusc which promoted the rise of the Samuel family to fame—in the oil and financial world. At a general meeting of the "Shell" Shareholders in June, 1918, Sir Marcus stated that "critics expressed themselves horrified at (Shell) profits of 35 per cent., and so in order to wipe away the reproach," fresh capital would be taken up and every shareholder of three shares would receive *gratis* two more. The effect of this announcement on the shareholders—already uplifted by such dividends, earned at a time when we were at death grips with Germany—can only be described as one of Shell-shock.

It has been suggested that paying 35% on a vastly increased capital, in addition to piling up a huge reserve fund, savours somewhat of profiteering; but so deeply is the Samuel and other Askenazi influence entrenched both within and without the Government, that it is improbable that any of the tribe will be made to disgorge. The Samuels have a motto of their own, but possibly a more appropriate one would be "Nemo me impune lacessit."

"L'appetit vient en mangeant," and Sir Marcus's land-hunger grows alarmingly. He has lately acquired vast tracts of Mayfair, whether with oil-bearing and manorial rights attached is not yet known.

Indications are not wanting that if this goes on, the aboriginal English will soon be dispossessed by Sir Marcus's tribe, who seem to have made up their minds "to go up and possess that good land."

Formed to acquire a mineral oil business and to amalgamate the interests of various other firms engaged on the transport of oil to India, China, Japan, etc.

The undertaking of this Company was merged with that of the Royal Dutch Co., and the various interests of the two concerns were consolidated in 1907. The whole assets of the "Shell" Co., and of the Royal Dutch Co., were acquired by two new Companies, one the "Anglo-Saxon Petroleum, Ltd." and the other a Dutch Company. the "Bataafsche Petroleum Maatschappij."

This is one of the most powerful "control" companies in the world, and is a close Jewish preserve in consequence.

It may be remembered that a few years ago, Mr. Samuel announced in the House of Commons that a certain London evening paper, which was attacking an oil company uncontrolled by the members of his race, was being financed by himself.

SONGS OF THE SAMUELS.

Samuel had a little clan,
It lay extremely low,
And everywhere that Samuel went
That clan was sure to go.

Capulet, in "New Witness."

For many years the clan or rather tribe of Samuel, have acted as the little poem states. In recent years it cannot be said, however, that they "lay extremely low," as various members of the tribe—after having obtained that "control" of finance which is so dear to the Jews' soul—have blossomed out into Privy Councillors, Home Secretaries, Postmaster-Generals, Secretaries of State for India, etc.

Some have obtained peerages, others have bought huge areas of English house property; but whatever they have obtained has been done in order to gain "control."

Mr. Samuel Samuel, when contesting Putney at the 1918 Election, launched a new vote catching scheme which, if enlarged upon at future elections has endless possibilities, it assumed the form of an accident insurance policy. The first prize was £1,000, and to win this you had in the first place to pay 1s. to Mr. Samuel's political association, and then be killed as the result of an accident. Smaller prizes were also offered, but you had to maim yourself very considerably to earn one, and it is doubtful if anyone but a Samuel could have thought out such an ingenious scheme..

In addition to oil, soda, and banking, Mr. Samuel is interested in the Press; and in order to keep his name well before his Putney constituents, he controls the local Putney paper, the "Boro News," which, owing to being printed in exceptionally small type manages to print columns of eulogies pointing out how fortunate the electors of Putney are in having a Samuel to represent them.

During the war, he specialised a good deal in importing dates from the Persian Gulf, and on Mr. Samuel raising the question in the House of Commons on the subject of allotting a first preference order to his firm, the Deputy Speaker stated: "It is a very remarkable exception to the general rule that an Hon. Member should rise in his place and discuss the action of a Minister of the Crown in a matter relating to his own private business."

Mr. Samuel, after his election in 1918, as a "coupon" candidate, gave mugs to all the children of Putney, but during the war he opposed the "Non Ferrous Bill," which was introduced in order to curtail in some slight degree the tentacles of the international Jew octopus which for years has "controlled" the base metal industry of our Empire.

It is difficult to even estimate the Samuel wealth, but as far as England is concerned, they probably run the Rothschilds fairly close in their "control" of finance. Three members of the tribe are on our Privy Council, which enables them to "control" State matters in the same way as other members of the tribe "control" finance.

Mr. Samuel has so far not been made a peer, but he may prefer to be without title as in these days it is difficult to find a Samuel who has not received one of our old and chivalric honours.

"The patriotism of Jews is merely a cloak he assumes to please the Englishmen. . . ."—Mr. B. Feltz in the "Jewish Chronicle," Dec. 8, 1911.

SAMUEL, Sir Stuart Montagu, 1st Bart., cr. 1912. M.P. (Rad.) Whitechapel Division of Tower Hamlets from 1900 till 1910. J.P. for County of London; member of Samuel, Montagu & Co., Foreign Bankers. Born 1856. S. of Edwin L. Samuel. Mar. Ida, dau. of Alphonse Meyer. Communal worker among Jews. Pres. Jewish Board of Deputies. Residence: 12, Hill Street, Berkeley Square, W.1.

Sir Stuart distinguished himself during the latter part of his parliamentary career by voting in Parliament a number of times after his firm had become Contractors to the Government, thereby subjecting himself to heavy fines. As Sir Stuart is immensely rich, it was naturally felt that he should not be asked to pay, and an attempt was made to evade in his favour this very wholesome law, which was introduced by Edmund Burke and his friends to check bribery and corruption. In Sir Stuart's case the attempt failed, and a heavy fine was paid.

Sir Stuart Montagu Samuel is a Jewish Banker, and member of the big money-lending family of old Samuel, the Liverpool pawnbroker.

As Chairman of the Board of Jewish Deputies, he is a sort of Prime Minister of the Jewish Parliament of Great Britain, which would seem to control the Parliamentary Westminster. It is an *imperium in imperio*—the Jewish International Parliament in the heart of the British Empire—and, as is usual in such cases, it is the inner motive power, or hidden hand, which guides, or rather misguides, the whole machine for Jewish ends, and to the mortal injury of National ends.

Naturally, this typical, super-rich Jew foreign banker has been forced by the Foreign Office upon this country to "represent" Britain as the head of the mission now being sent out to investigate pogroms in Poland. This, as a well-known writer puts it, is about as sensible as if De Valera were put as the head of a "British" mission to enquire into English atrocities in Ireland. Sir Stuart Montagu Samuel is a Jew and not a Briton. He could quite properly head a Jewish mission; but a British mission—never! However, the *Jewish World* approves, so Britons ought to be happy. "The selection of Sir Stuart Samuel to head the mission to report upon the pogroms is an admirable one," says the *Jewish World*, Aug. 27, 1919.

The previous week this paper suggested that another member of the Samuel tribe, Herbert to wit, should be chosen. "He certainly would be *persona grata* to Anglo-Jewry, and we imagine could not in other respects be bettered for the purpose." How repugnant he would be to Englishmen is not worth mentioning.

According to the same journal, which seems to be intimately acquainted with State secrets, "the invitation was first accorded" to Herbert, but Herbert is at present head of an "Anglo-

"Eighteen young Jews from Leeds were charged yesterday at Belfast with evading the Military Service Act."—"Daily Chronicle," March 30, 1916.

"Belgian" British mission, so another member of the tribe had to be found. Fortunately, there are plenty of them left to head other "British missions" and enterprises, and since the Jew domination of England, it is not considered good form on the part of our Alien controlled Government to allow Englishmen to manage their own affairs.

He was Mr. Winston Churchill's principal assistant in leading the opposition to the Aliens Immigration measure, was associated with this "statesman" in the movement for procuring the abolition of the naturalisation fees, and in a speech to the Jews at Leeds, reported in the *Jewish Chronicle*, Dec. 14, 1906, said: "Will you allow me a few moments to point out to you the necessity of getting naturalised? The Jews and other aliens, if they do not possess the vote, are not able to protect themselves against the laws made against them."

At present the Asiatic controls our destinies, but fortunately the Englishman and the white races of the world are beginning to see the red light, and it is possible that our Asiatic conquerors may have a rude awakening before long.

It is certainly the most powerful chemical combine in Europe, is dominated by Free Traders, which is not surprising in view of the selling arrangements arrived at with the Frankfort chemical firms, which enable Brunner, Mond to "control" prices and prevent competition. In the words of the United States Consul-General at Hamburg: "*All German houses have given over their export business to Brunner, Mond & Co., and the United Alkali Co., of London and Liverpool.*"

Truly the hand of the International Jew rests heavily upon England, and until eradicated it will rest heavier still.

SCHIFF, Jacob one of the directors of Kuhn, Loeb & Co., Bankers, New York. B. at Frankfort.

The great financial supporter of the *Mutual Society of German Jews*, which is linked on many sides with high German circles. According to "Pertinax" (quoted in *Modern Italy*, June 21, 1919): "During the war, before America intervened, Jacob Schiff formed *The American Neutral Conference Committee*, which took upon itself the task of bringing about peace with a victorious Germany. Then appeared for the first time the formulæ of the League of Nations, the anathemas launched against the 'old diplomacy,' which was said to be responsible for bringing about the war." Mr. Heubsch, Schiff's colleague in the *Neutral Conference Committee*, wrote a book, entitled "*How the Diplomatists Caused the War.*" *Modern Italy* suggests that Schiff may be the real author of the League of Nations: "Given the overwhelming influence of International Finance, what is there to prevent the real centre of the League from being established, not at its nominal centre, Geneva, but at Frankfort, the home of International Finance? What is there to prevent it becoming a mere political department of the *Allgemeine Electricelats Gesellschaft*? National Finance may be hard enough to regulate in the interests of the Nation; but under a régime of international finance all nations would bow to a new Master, more strange and terrible than Cæsar, stronger than the Roman Empire, stronger than the Papacy, a Master called Baal in ancient times, whose aim it is to-day to turn the world and all the nations in it into one vast servile State." The U.S. Senate thinks Schiff knows more than he tells about certain State affairs that ought to be secret, to wit, how copies of the Treaty of Peace reached certain private interests in New

York. Therefore, according to *Reuter* (*Morning Post*, June 10th), the Foreign Relations Committee of the U.S. Senate have subpœnaed Messrs. Jacob Schiff, Warburg and others in connection with an investigation into the matter, at the instance of Senator Borah, who traces the League of Nations to international bankers of New York. His Secretary, Ed. Aulike, was interned in 1918.

Mr. McKenna, Home Sec., stated in the House of Commons in Nov. 1914 that it would have been a "disaster" if Baron Schröder had not been naturalised.

This same Home Sec. called the Schröder house a "*German Firm*," but Mr. Lloyd George a few days later, in his anxiety to protect his International Alien friends, stated: "It is a great British Firm. It is purely an accident that the present man happens to have been a German. . . . But it was a great British firm. It was known throughout the world as a great British firm."

This shows the length to which our politicians will go to protect the International financial gang.

Comparatively harmless barbers and waiters were interned wholesale, but an international financier must be protected at all costs.

The Schröder hobby during the war has been orchid growing, and coal collecting.

Having received what should be the greatest honour an Alien can receive, viz., British Citizenship, it is to be hoped that he will rest satisfied with this, and will not compete with other internationalists for peerage honours.

It was once more a case of "Jewry über Alles."

"... Many believed ... that a man such as Lord Kitchener should occupy the position of Secretary of State for War ... a Government so constituted would be the worst Government this country could suffer from." Mr. Herbert Samuel, M.P., Postmaster-General, Gt. Central Hotel, March, 1910.

SCHUMACHER, R. W. (now known as Ffennell), of Wernher Beit & Co., L. Breitmeyer & Co., Diamond Merchants, and Central Mining & Investment Corporation, Ltd.

The "Directory of Directors" of 1914 and 1918 only show Mr. Schumacher as being interested in the two latter companies, whereas in reality he is on the board of a vast number of gold companies, and his name will be seen many times in this book.

His name does not appear in the 1914 "Who's Who," which may lead people to think that he is of a retiring disposition, but in Johannesburg he is very prominent. He is a Major in the Boy Scouts, and during the War changed his name to Ffennell. He has a very nice estate in the aristrocratic county of Oxfordshire.

He is on the board of many Companies, and in 1914 was Chairman of the

The capital of the Rand Mines, Ltd., is small (£550,000), but the profits are enormous, and its control of the gold industry is vast. This no doubt accounts for the fact that the board does not appear to contain any Christians. It is a "control" company, and is, therefore, a close Jewish preserve. From 1909 to to 1913 it paid dividends of over 200 % each year. If control of gold is to continue to produce "honours," Major Ffennell should be well to the fore as soon as there is more activity in this line.

Just as the great Jew-controlled Banks of Germany, the Disconto-Gesellschaft, the Dresdner Bank, the Deutsche Bank, etc., by dint of continually absorbing smaller institutions, are now in practically absolute control of German finance, so the Jewish control of British banking is being steadily consolidated by a series of great amalgamations in Great Britain.

It must not be forgotten that four enemy banks owed the Bank of England on the outbreak of the War over £4,000,000, but so great is the stranglehold the International Jew financier has over Britain and her leading politicians, that it took years for Sir W. Plender to, what has been tragically called, "wind" them up. Sir William's

"The Jews come from nowhere and go everywhere."—G. K. Chesterton.

"winding" must have "run down" to some extent, as in the last year of the war the Disconto-Gesellschaft stated in its last report, "Contrary to last year, we have been able during the financial year that has just expired to correspond though with restricted limits with our London branch. This has enabled us to assist our clientele in disposing of stocks which were on deposit in London."

Truly, the heavy hand of Jew finance rests heavily upon us.

It was this imported baronet's brother, Ernest Schuster, who in the *Westminster Gazette* of August 3rd, 1914, prophesied that "The participation of this country in the war between Continental nations will be a greater crime (than the Crimean War), and the penalty will be infinitely more severe. The widows will mourn, and the workmen will be starved, the factory chimneys will be without smoke, and the harbours full of 'idle ships.'"

These genial remarks were made in the Mond-owned *Westminster Gazette*, in order to keep England out of the war, as, at that time, the Internationalist group were anxious that we should keep neutral. The native British, however, declined to abandon France to her fate, and, though to-day many thousands are mourning the loss of their relations, their grief would be lessened if they were not aware of the fact that the sacrifices made have vastly increased the power of the International Financial Jews, and done little to uphold the ideals for which Britain entered the War.

SPEYER, Rt. Hon. Sir Edgar, Bart. Cr. 1906. Privy Councillor. S. of Gustavus and Sophie Speyer, both of Frankfort. M. dau. of von Stosch of Maintz, Prussia. Educ. at Frankfort. Holds order of the Prussian Crown.

Is a native of Germany, and soon after the outbreak of the war emigrated to New York. It was to test his right to sit on the Privy Council of England that Sir Geo. Makgill took a test case in 1914. The Chief Justice (Rufus Isaacs) stated that the Act of Settlement of 1700 which prohibited Aliens from being Privy Councillors was "repealed by implication." Mr. Asquith repealed this important Act on August 7th, 1914, thus permitting the Alien the free run of our political and trade secrets. He is the head of Speyer Bros., Bankers. Other directors include Henry Oppenheimer, James Speyer (New York), Edward B. von Speyer (Frankfort), Max N. Bingen, Arthur L. Sommerhoff, Henry Heymann, Robert Isaac.

". . . Many believed . . . that a distinguished admiral should be First Lord of the Admiralty . . . a Government so constituted would be the worst Government this country could suffer from."—Mr. Herbert Samuel., Postmaster-General, Gt. Central Hotel, March, 1910.

Sir Edward Speyer conceived and carried out the idea of a great combine between the various omnibus companies and tube railways of London. Behind the whole monopoly are the international Speyer interests.

The Directors of the powerful Underground Electric Railway Co. of London £13,294,990 (with its controlling and price-raising interests) are :—

Lord Geo. Hamilton (Chairman) — Mr. W. M. Ackworth—Mr. C. J. Cater-Scott—Lord Farrer—Col. Sir H. Jekyll—Lord Knutsford—Lord Southborough—Lord Stuart of Wortley—Mr. H. A. Vernet—Sir A. West.

Sir Edgar Speyer does not appear in the 1918 "Directory of Directors," but does in the 1914 Directory.

Sir Edgar Speyer was also the bosom friend and financial adviser of the Rt. Hon. H. H. Asquith, formerly Prime Minister of England. Before the war, Sir Edgar was one of the Jews who provided the funds for the establishment and support of the German pauper colony in Hertfordshire. Subscriber to the fund "to aid Innocent Alien Enemies in Great Britain."

It is impossible to estimate the extent of the financial control this firm exercises, but it is quite stupendous, it is entirely international, and is on a par with the Rothschilds, Sassoons, Fruhling and Goschen, B. W. Blydenstein & Co., Seligman Bros., Neumann Luebeck & Co., Samuel Montagu & Co., A. Keyser & Co., Emile Erlanger & Co., J. Henry Schröder & Co. It may be truthfully said that they dominate "Britisch" finance to the benefit of the international Jew gang and at the expense of the real Briton. It requires a second Queen Elizabeth to purge the country from this Alien control.

"There were whole streets in the East of London where the people did not speak English. That was a public danger and a public scandal."—Sir E. Wild, House of Commons, July 9, 1919.

There were eleven members of the Speyer tribe naturalised between 1848 and 1894, the bulk of whom hailed from Frankfort, the home of the Askenazi.

Was on the committee of the 1913 Kaiser Jubilee Fund, to which he subscribed £1,000, the others who subscribed the same amount being Sir Ernest Cassel, C. A. Bingel, L. Breitmeyer, Dr. Ernest Schuster, and Mrs. Frank Tiarks.

STRAKOSCH, Henry.

Director of A. Goerz & Co. £1,500,000

This company which is a South African "control" house, has now extended its tentacles to West Africa, Nigeria, and Mexico. In addition to its very considerabe *direct* mineral holdings, this House has interests in a huge number of companies, mostly mining, with property all over the world. It is in consequence a close Jewish preserve, and not a single Anglo-Saxon was on its Board in 1914. It is technically a purely British Co., but it has been suggested that its cosmopolitan and Asiatic flavour entitles it to be called "Britisch."

SWAYTHLING (Lord), Montagu Samuel Montagu. Cr. 1907. M. dau. of Louis Cohen. Assumed name of Montagu in 1894. J.P. for London and Hampshire. Formerly M.P. for a Whitechapel Division. His original name was Samuel, his father being Louis Samuel, the pawnbroker, of Liverpool, who married Miss Israel of St. Mary Axe.

Head of the Banking firm of Samuel Montagu and Co., which a few years ago did some exceedingly profitable business in providing the Government of India with supplies of silver bullion.

SWAYTHLING, Louis Samuel Montagu, 2nd Baron. Son of Montagu Samuel Montagu, and grandson of Louis Samuel. Mar. 1898, dau. of Col. Albert E. Goldsmid, M.V.O.

Head of the Banking firm of Samuel Montagu & Co., which is one of the most powerful international Banking "Houses" in England to-day. Owns over 1,000 acres of land in England, and is a member of several well-known London Clubs.

His lordship is a brother of the Rt. Hon. Edwin Montagu, the present Secretary of State for India, which country does not appear to appreciate the Samuel regime. Hitherto our most valued Eastern possession has been wont to leave its affairs in the hands of the British Raj, and leaders of Indian opinion do not in any way appreciate having a Samuel ruling their destinies.

Lord Swaythling's father—the first Lord—was born Samuel, but changed his surname to Montagu. He was one of the principal opponents of the movement for restricting the immigration of undesirable Aliens; a shareholder in a London daily newspaper conducted in the interests of his race; and left a will which provided that any of his children who married any of the Aliens, out of whom he had made his huge fortune, should not inherit any portion of it.

The head of Mr. Tiark's firm—Baron Bruno Schroder—topped the subscription list with £5,000, closely followed by Messrs. Otto Beit and Hermann Kleinwort, who each gave £2,000. Including Mrs. Frank Tiarks, there were five who donated £1,000 each to the Fund—the other four being Sir Edgar Speyer, Bart., P.C.; Sir Ernest Cassel, P.C.; L. Breitmeyer, and Dr. Ernst Schuster.

It will be seen from the above list that this company is quite a family affair. It holds the majority of the shares in the Dutch Co.

The Dutch Company for the exploitation of margarine factories, is interested in a number of margarine factories abroad and holds a controlling interest in them all. It is itself controlled by Van den Berghs, Ltd. "Control" of the necessaries of life is the Jew aim and the Van den Bergh tribe have been very successful in arranging this. Before the war this Company paid over 100% in dividends, so it can be imagined what their profits have been during the war. No margarine peerage has yet been bestowed, but that may be due to the fact that prior to the war this now staple article of food had not gained the popularity it now enjoys. There are nine members of the Van den Bergh family to select from should a margarine "Honours" list be issued.

The appeal he has lodged will, of course, come before Sir Felix Cassel the Judge Advocate General. In view of his Askenazi connections, and his all powerful and family influence with the international gang of financiers, known as the Wernher Beit Eckstein group, it may confidently be expected that this bankrupt baronet of Alien blood will be saved, as the Askenazi Dreyfus was, from paying the just penalty for the most atrocious crime any soldier can possibly commit.

ZANGWILL, Israel, born London, 1864. S. of a Jewish immigrant, Moses Zangwill, who came to this country in 1848. Educ. Bristol, and Jews' Free School, London; Author and Lecturer; has lectured in Great Britain, Ireland, Jerusalem, Holland, and the United States. Founder and President Jewish Territorial Organisation; Vice-President League of World Friendship; Council U.D.C.; Vice-President Men's League for Women's Suffrage; Author of "Children of the Ghetto"—later dramatised and acted in U.S.A. in English and Yiddish; "Dreamers of the Ghetto"; "The Mantle of Elijah"; "Blind Children"—containing the remarkable poem "Israel"; "The Next Religion"; "The Melting Pot."

Early in the war, Israel Zangwill showed his deep-rooted alienism by his declaration that England's "*entente* with Russia was too high a price to pay even for safety against the German peril." Commenting on this candid utterance Professor J. E. C. Bodley wrote in the "Times": "Most of us are willing to believe that the majority of British Jews are first Englishmen and then Hebrews. But utterances such as his (Zangwill's) make it necessary to recall the unpleasant fact that in the Press and politics of Europe and America, Jewish influence means German influence. . . . What right has Mr. Zangwill to lecture us and to talk lightly of the German peril—which is no peril to him or his people—when England alone in the world has given, at the expense of her working classes and her rate-payers, a reckless hospitality to the Russian Jews whose interests he puts above those of the British race."—Of course he does; the race to which Trotsky, Bela Kun, Litvinoff, Enver, Trebitsch Lincoln, Schiff, and Rothschild belong is all in all to Israel Zangwill. In his opinion all white races are outside the Jewish pale, and outside Jewish law. He truly describes his own tribe which, according to him is the race which is chosen to rule and exploit the British Empire, and all the other Empires, Russia being the first experiment, in his own poem "Israel":

"Priests of the household altar, blessing the bread and wine,
Lords of the hells of Gomorrah, licensed keepers of swine;
"Pious fanatical zealots, throttled by Talmud-coil,
Impious lecherous sceptics, cynical stalkers of spoil;
"Blarneying, shivering, crawling, taking all colours and none,
Lying a fox in the covert, leaping an ape in the sun."

This is the only race which commands Zangwill's love and devotion. His appearance on the Bolshevist platform at the Albert Hall meeting, and his eloquent plea for "Hands off Jew Bolshevist Russia!" give a proper finishing touch to his work. He is a fine example of the kind of population England has imported within the last seventy years, and now we are reaping the fruits of this Asiatic invasion.

"The first thing we do, let's kill all the lawyers."—Shakespeare, "Henry VI., Second part, Act 4.

Israel Zangwill is a great pillar of Zionism. Let him lead his "blarneying, shivering, crawling" fellow-tribesmen as expeditiously as possible back to their Asiatic home, and keep them there, now that British valour has conquered it from the Turks. It would seem doubtful, however, if this is his intention, as signs of the "great trek" seem conspicuous by their absence.

Sir W. Evans Gordon, in "Vanity Fair," May 4, 1905, wrote as follows: "I was told by an eminent leader of the Zionist movement, M. Sokolov, that if a Jewish State were again founded, one of the first steps taken by its administrators would be to exclude *all*—not only Gentile—undesirables from its borders. The wisdom of M. Sokolov's attitude is recognised by so keen a Zionist and Hebrew patriot as Mr. Israel Zangwill. Mr. Zangwill looks forward to the establishment of an autonomous Jewish colony in East Africa, but as he informed an interviewer from the 'Jewish Chronicle' quite recently, 'it is not to be a dumping ground for refugees.'"

Why should it, as long as they can be dumped on the English people, like Mr. Zangwill's parent, Moses, for example, in 1848? It is always, "Heads I win, tails you lose" with the tribe of Israel. But a time is coming when England will refuse to take a hand in this game.

Now that the Jews have their own country to go to, it behoves Englishmen to see that not some of them go there, but that they *all* go and *stay* there.

It is to be hoped that Mr. Zangwill, in view of the premier position he holds as an ardent Zionist, will lead them.

ZANGWILL, Louis, born Bristol. S. of Moses, the refugee of 1848, and brother of Israel Zangwill. Journalist and man of letters *Recreations*: study, travel, old furniture and *objets d'art*.

In "Jewish Chronicle," of August 1st, 1919, he wrote of England's seats of learning, Oxford and Cambridge, in these terms: "These mushroom—and intellectually second-rate—heathen Universities." This is about to be remedied. The Jews propose to erect as a "War Memorial" to the memory of departed Jews a Jewish College in one of the University towns, Oxford for choice, which will give a decent antiquity and proper tone and dignity to these "second-rate heathen Universities," as this Asiatic journalist has been pleased to call these seats of ancient learning.

THE JEW CONQUEST OF FRANCE.

Isaac Blümchen, a naturalised " French " Jew, in his work " *Le Droit de la Race Superieure* " gives striking proof that although the Germans have failed to conquer France by force of arms, the Jews have completely succeeded. Subjoined are extracts translated from the French edition of his work:

DATE OF CONQUEST.

The history of France is nothing but the history of the conquest of France by Israel, commencing with the intervention of the Masonic Lodge at the end of the eighteenth century and reaching its apotheosis in the twentieth century. And whilst we expunge from the programmes of the schools the teaching of the legends of Old France—" those absurd dreams of the past," as Joseph Reinach called them in 1895—we insist on the teaching of what the French naively call sacred History, that is, the history of our tribulations, superstitions, the recital of our manias (fureurs) and the memory of our origins.

We have opened in Paris a School of High Social Studies in order to teach the young bourgeoisie " morals, philosophy, pedagogy, sociology, journalism," and everything which touches public life. The administrators, with a general who bears the predestined name of Bazaine, are named Theodore Reinach and Bernard; the council of Direction includes our Jews Eugene See, Felix Alcan, Dick May (Jewish Secretary general), Diehl, Durkheim, Joseph Reinach, Felix Michel.

The professors for 1913-1914—with a few natives whose blind submission is guaranteed—are named Theodore Reinach, Léon, Friedel, Cruppi-Crémieux, Dwelshauvers, Hadamard, Brumschwig, Milhaud, Meyerson, Blaringhem, Rosenthal, Lévy-Wogue, Gaston-Raphaël, C. Bloch, G. Bloch, Hauser, Mantoux, Moch, Worms, Yakchtich, Weyll-Raynal, Lévy-Schneider, Bergmann, Zimmermann, Rouff, Léon Cahen, Caspar, Georges-Cahen Bash, Mandach,

" Those who think politicians are moved by sordid pecuniary considerations know nothing either of politics or politicians."—Mr. Lloyd George at the National Liberal Club, July 1, 1913.

Boasson, Mortier, Bluysen, Elie May, Edmond Bloch, etc.

Others fill important functions elsewhere, in strategic posts in the High University or in the Central Administrations.

Have they thrown in our faces in days past the name of our ghettos? Ah well! We have made a ghetto of the Sorbonne, a ghetto of the University, ghettos of the great schools of France.

JOSEPH REINACH CONTROLS THE ARMY.

Our Joseph Reinach is Vice-President of the Army Commission. The Commission charged with searching the archives of the Revolution, the Commission charged with exploring the Diplomatic documents of the second Empire and of throwing light on the causes of the Franco-German war, have at their head Joseph Reinach. All military secrets, all historic dossiers are at the mercy of Joseph Reinach.

When Joseph Reinach steps down from the Parliamentary tribune, where he has just been regulating the French Army, Théodore Reinach succeeds him (11th Nov., 1913) to defend the old churches of France from the vandalism of the natives.

At the Congress of Instruction, it is Theodore Reinach who proposes to impose on native fathers of families civil and political disabilities and ignominious penalties if they do not give up their children to the instruction approved of by Israel.

When our learned Jews have taught French to the natives of France, they will next teach them Hebrew and Yiddish, for it is only fitting that the conquered shall speak the language of the conquerors. The proposition was made with very good reason by *L'Univers Israëlite* and by *L'Echo Sioniste*, in October, 1912: "Hebrew is a classical language of the same order as Greek; the Republic ought to create a degree in Hebrew-Latin, in which the candidate could choose for texts Isaiah and The Proverbs. The teaching of this would furnish remunerative work to our provincial Rabbis."

"The accomplishment of these designs would suffer a sad delay if the Jews imported from Germany, Russia, Roumania and the Levant should be compelled to learn French before obtaining naturali-

sation and the rights of French citizens. It is necessary that they should receive *immediate* protection from expulsion and be *immediately* made electors, capable of standing for election and admissable to the highest offices of state. This is why we have placed as chief of service of 'Declarations of Residence,' 'Permits of sojourn,' and 'Naturalisations' our Grümbach, carefully selected by Israelite Alliance."

POLITICAL CORRUPTION.

I have already shewn that the President of the Republic is in strict dependence upon us, and the Ministries filled by Jews or natives married to Jewesses. Such a one is Baudin whom we pushed into the Ministry of the Marine. He repudiated his French wife to marry our sister Ochs, who accompanied him on his *inspections of the fleet* (April 1913) . . . When he arrived at the Rue Royale, his first official act was to appoint as Consul of the Ministry our brother Schmoll!

The Socialist party is ours because we support its journals, its organisations and its tribunes. The Radical and Radical-Socialist party is ours; its general secretary is a Cohen; its members solicit and receive subsidies for their elections from the banks of Rothschild and Dreyfus. The Mascusand Committee, which is the richest and perhaps the most influential electoral agency of the Republic, comprises eighty-four per cent. of Jews; 5 Bernheims, 9 Blochs, 6 Blums, 9 Cohens, 4 Cahens, 10 Kahns, 7 Dreyfuses, 5 Goldschmidts, 4 Hirsches, 29 Levys, etc. From the Socialist Jaurés to the radical Clemenceau there is not a politician, fat or lean, who is not in our pay. We watch over them by their Jewish secretaries, Jewish mistresses, girls of the theatres or gaming houses, baronesses of adventure, or old clothes' women.

JEWS CONTROL FREEMASONRY.

In order to second the Synagogue and the Committee of the Israelite Alliance we have founded in Paris Masonic Lodges where our brothers deliberate alone, screened from the profane. All masonic lodges are peopled with our Jews, but no Gentiles ever penetrate into

"**Most people have made a little money during the war.**"—Election Speech by Sir Alfred Mond, Swansea, Dec. 13, 1918.

our Jewish lodges, such, for example, as the Goethe Lodge, founded in 1906 by the brothers Dubsky, Fischer and Boucholtz. In this lodge only German and Yiddish are spoken. From this goes forth the order which will throw into the street our fifty thousand immigrants, revolver in hand, for the grand Passover to be celebrated to the sound of German cannons.

THE FRENCH ARISTOCRACY JUDAISED.

The highly unlikely prodigy of a restored Monarchy does not alarm us Jews. The Monarchy would be ours just like the Republic. Phillip VII. would go and hunt with Rothschild like the King of Spain, or breakfast with Reinach like the Tsar of Bulgaria. The Monarchy will not support itself on a clan of over excited pamphleteers but on the aristocracy and the high bourgeoisie. Now the aristocracy is an annex of Israel and the high bourgeoisie is its servant. The high bourgeoisie we hold in leading-strings through the Councils of Administration. What remains of the aristocracy we have bought. The bourgeois who look for a future in public life are reduced to becoming our sons-in-law or our lackeys. The descendants of the ancient great families marry our daughters or live at our charges. If there is any mésalliance, it is on our side. We are the first aristocracy of the world. It is to give ourselves a French appearance that we usurp the outer signs of the French noblesse.

The Prince de Bidache, Duc de Grammont, Allié aux Ségur, Choiseul-Praslix; Montesquion-Fézensac, Lesparre, Conegliano, etc., etc., has married a Rothschild.

The Prince de Wagram et de Neufchâtel (Berthier) has married a Rothschild.

The Duc de Rivoli (Masséna) has married a Furtado-Heine, whom the Duc d'Elchingen (Ney) had married before, and whose daughter has married the Prince de Murat.

The Prince de Chalençon-Polignac has married a Mires.

Our Marie Alice Heine, before marrying the Prince of Monaco, was the wife of the Duc de Richelieu.

The Duchess d'Estampes is a Jewess Ramingham; the Marquise de Breteuil a Jewess Fould; her husband is also a director of the Wernher

The Duchess de la Croix-Castries is a Jewess Sena; a widow, she remarried the Comte d'Harcourt: she thus entered into the families of all the Harcourts, Beaumonts, Guiches, Puymaigres, Mac-Mahons, Haussonvilles. The Haussonvilles have had other occasions of allying themselves with the Jews Ephrussi.

The Marchioness du Taillis is a Jewess Cahen; the Princess de Lucinge-Fancigny, another Jewess Cahen; the Countess de la Rochefoucauld, a Jewess Rumbold; the Marchioness de Presle a Jewess Klein, the Countess de Rambervilliers, a Jewess Alkein; the Marchioness de Grouchy, the Viscountess de Kerjégu, the Countess de Villiers, are three sisters, Jewesses Haber; the Marchioness de Noailles a Jewess Lackmann; the Countess d'Aramon a Jewess Stern, etc. All the armorial is going the same way. Since then these families "of the old rock" have multiplied. Their children have grown up; other families "of the old rock" hungry for Jewish money, have followed the movement.

THE UNIVERSAL ISRAELITE ALLIANCE.

Blümchen goes on to describe the machinery by which the Jews destroy national and set up their own international control.

The Government of conquered France is exercised, on behalf of Israel, by two organs, of which the names ought to be as familiar to the native French as are those of the Chamber of Deputies and the Senate.

"I can assure you that the scaremongers are making us look ridiculous in the eyes of the world; our German friends wonder what is the matter with our nerves."—Sir Alfred Moritz Mond, January, 1910.

it will be seen that they are so closely interlocked as to form practically one body.

The equivalent in England of this all-powerful Jew combine in France is "The Board of Jewish Deputies," the President of which is Sir Stuart Samuel, and the Vice-Presidents, Lord Rothschild and Mr. Anthony de Rothschild.

Fortunately for France, a few French patriots have not only discovered that their beautiful and historic country is being polluted by the Asiatic horde of Jew defilers, but have the courage to come forward and tell their countrymen from whence springs this all-pervading corruption, intrigue and vice.

The leaders in this truly patriotic movement are Monsieur Léon Daudet, editor of "L'Action Francais," which is said to be almost the only daily paper of repute published in Paris not under Jew control.

Senator Gaudin de Villaine, who has exposed in the most courageous manner in the French Senate the International Jew plot which is throttling France, and unless destroyed intends to reduce Christendom to a state of anarchy. Monsieur Urbain Gohier, the editor of "la Vieille France" a weekly publication, the subscription being Fcs. 10 a year, pledged to bring into the light of day the corrupting Jew influences which are crushing the very life blood out of 'la belle France.'

So far, we have no counterpart of Monsieur Gohier in

"Dear Lincoln,—You have my heartiest good wishes in your contest at Darlington. A win at Darlington would be a great victory for Free Trade and Liberalism."—Letter from Mr. Lloyd George to Trebitsch Lincoln, ex-M.P., Darlington.

England, but our people are beginning to realise that we also are in the toils of the Internationl Jew octopus, and it is to be hoped that before it is too late a few English patriots will come forward and help, through the means of a few really British newspapers, and in other ways, to remove this Alien menace which is polluting us, and will ere long certainly destroy us.

Lloyd George, no doubt, when his life ebbs out,
Will ride in a blazing chariot,
And sit in state on a red hot plate
'Twixt the Devil and Judas Iscariot.
Ananias that day, to the Devil will say:
"My right of precedence now fails,
So, move a bit higher, away from the fire,
And make room for this lawyer from Wales."

From "The Daily Mail," when Mr. Lloyd George was Chancellor of the Exchequer.

"All Masonic Lodges are peopled by our Jews, but no one ever penetrates into our Jewish Lodges . . . in which only German and Yiddish are spoken."
